Writing the Map of Anglo-Saxon England Nicholas Howe,2008-01-01 Eminent Anglo Saxonist Nicholas Howe explores how the English in the centuries before the Norman Conquest located themselves both literally and imaginatively in the world His elegantly written study focuses on Anglo Saxon representations of place as revealed in a wide variety of texts in Latin and Old English as well as in diagrams of holy sites and a single map of the known world found in British Library Cotton Tiberius B v The scholar s investigations are supplemented and aided by insights gleaned from his many trips to physical sites The Anglo Saxons possessed a remarkable body of geographical knowledge in written rather than cartographic form Howe demonstrates To understand fully their cultural geography he considers Anglo Saxon writings about the places they actually inhabited and those they imagined He finds in Anglo Saxon geographic images a persistent sense of being far from the center of the world and he discusses how these migratory peoples narrowed that distance and developed ways to define themselves
