*TikTok Cultures in the United States* Trevor Boffone, 2022-04-03 *TikTok Cultures in the United States* examines the role of TikTok in US popular culture paying close attention to the app's growing body of subcultures. Featuring an array of scholars from varied disciplines and backgrounds, this book uses TikTok subcultures as a point of departure from which to explore TikTok's role in US popular culture today. Engaging with the extensive and growing scholarship on TikTok from international scholars, chapters in this book create frameworks and blueprints from which to analyze TikTok within a distinctly US context, examining topics such as gender and sexuality, feminism, race and ethnicity, and wellness. Shaping TikTok as an interdisciplinary field in and of itself, this insightful and timely volume will be of great interest to students and scholars of new and digital media, social media, popular culture, communication studies, sociology of media, dance, gender studies, and performance studies. Popular Science Monthly, 1926 **Popular Series** Denver Museum of Natural History, 1948 The Billboard, 1929 Introduction to Information Systems R. Kelly Rainer, Brad Prince, 2023-09-27 *Introduction to Information Systems* 10th Edition teaches undergraduate business majors how to use information technology to master their current or future jobs. Students will see how global businesses use technology and information systems to increase their profitability, gain market share, develop and improve their customer relations, and manage daily operations. This course demonstrates that IS is the backbone of any business, whether a student is majoring in accounting, finance, marketing, human resources, production, operations management, or MIS. In short, students will learn how information systems provide the foundation for all modern organizations, whether they are public sector, private sector, for profit, or not for profit.

The authors include colleagues and former students of an academic who was a practising ethnomusicologist only three years after the term was coined. Although most of his university career was spent at the University of Auckland, Mervyn's influence in the fields of Pacific music research and archiving were such that the contributions in this volume are the result of both distant reputation and personal acquaintance. The volume is the product of the Study Group on Musics of Oceania within the International Council for Traditional Music, of which Mervyn has been a member for many years. The volume title is intended to encompass the span of Mervyn's professional interests, which include the role of archives in Oceanic music research and performance, material culture collections in music research and performance, the role of transcription in music research and performance, the importance of bibliographic research in tracing the connections between the past and the present, the significance of

collaboration in research particularly with scholars in other disciplines and its significance to performance and the colonial encounter and its implications for historical and contemporary performance      *Gramophone Popular Catalogue* ,1987-03
