Web 2.0 is more a series of trends than a basket of things. More and more power is in the hands of individual users and their networks. Web content is distributed, sorted, combined and displayed across the Web in formats and places not anticipated by the content creators. New technology now makes rich online experiences and complex software applications possible and at a low cost. Integration is breaking down walls between PCs and mobile devices. *Los Angeles Saturday Night*, 1935
