Schuster,2022-01-27 Homeless Voices Stigma Space and Social Media argues that the best sources for how to address issues of homelessness are people experiencing homelessness themselves particularly as they express their experiences through personal blogs and memoirs Mary L Schuster discusses how space and land have been historically denied to marginalized communities who still feel the effects to this day along with examining the conditions and limitations of common spaces often assigned to those experiencing homelessness culminating in an analysis of how the novel coronavirus COVID 19 has impacted homelessness Schuster focuses on two vulnerable groups that often experience homelessness victims of domestic violence and unaccompanied youth particularly those who struggle with gender identity and unstable housing This book includes a variety of case studies examining public meetings and court decisions public policy symposiums and personal interviews and ultimately finds that intersectionality specifically age race gender identity and ethnicity plays a large part in understanding and experiencing homelessness By shifting our attention to the diverse voices who experience homelessness themselves Schuster claims we can finally begin to remedy this crisis Scholars of media studies sociology and urban development will find this book particularly useful *Survival Guide for Homeless Families and Single People in Oxford* Oxford (England).
