and Ahmed Al-Shamma'a

Sustainable Built Environment Technical Managerial

**Marjan Sarshar Driscoll, Anton
Ilanakiev, Begum Sertyesilisik**

Sustainable Built Environment Technical Managerial:

The Sustainable Built Environment Begum Sertyesilisik,Ahmed Al Shamma'a,2016 The text adopts an interdisciplinary approach to address the huge challenges in creating a sustainable built environment In a broad survey of critical issues it assesses procurement cost modelling and management sustainable buildings low and zero carbon technologies sustainability in utilities and the law **The Sustainable Built Environment** Begum Sertyesilisik,Ahmed Al Shamma'a,2015-11-27 The text adopts an interdisciplinary approach to address the huge challenges in creating a sustainable built environment In a broad survey of critical issues it assesses procurement cost modelling and management sustainable buildings low and zero carbon technologies sustainability in utilities and the law

Design and Management of

Sustainable Built Environments Runming Yao,2013-03-12 Climate change is believed to be a great challenge to built environment professionals in design and management An integrated approach in delivering a sustainable built environment is desired by the built environment professional institutions The aim of this book is to provide an advanced understanding of the key subjects required for the design and management of modern built environments to meet carbon emission reduction targets In Design and Management of Sustainable Built Environments an international group of experts provide comprehensive and the most up to date knowledge covering sustainable urban and building design management and assessment The best practice case studies of the implementation of sustainable technology and management from the BRE Innovation Park are included Design and Management of Sustainable Built Environments will be of interest to urban and building designers environmental engineers and building performance assessors It will be particularly useful as a reference book for undergraduate and postgraduate students in the built environment field

Design Management for

Sustainability Stephen Emmitt,2017-07-28 Building on the special edition Aspects of Design Management Volume 3 1 2007 this publication brings together the rapidly developing field of design management with that of environmental sustainability Eight articles drawn from around the world help to provide some critical insights into the relationship between ecological sustainability and the application of design management in a number of different contexts Contributions range from early policy decisions and public procurement options to corporate social responsibility of architects and the promotion of materials and products to specifiers to encouraging change and a design process evaluation method to investigations into the role and contribution of construction design managers and facilities managers to a sustainable built environment Collectively the articles provide a unique multi disciplinary contribution to the theoretical development of the design management field as well as guidance on the practical application of methods and tools *Collaboration and Integration in Construction, Engineering, Management and Technology* Syed M. Ahmed,Paul Hampton,Salman Azhar,Amelia D. Saul,2020-12-21 This book gathers papers presented at the 11th International Conference on Construction in the 21st Century held in London in 2019 Bringing together a diverse group of government agencies academics professionals and students the book addresses

issues related to construction safety innovative technologies lean and sustainable construction international construction improving quality and productivity and innovative materials in the construction industry In addition it highlights international collaborations between various disciplines in the areas of construction engineering management and technology The book demonstrates that as the industry moves forward in an ever complex global economy multi national collaboration is crucial and its future growth will undoubtedly depend on international teamwork and alliances [Circular Economy Design and Management in the Built Environment](#) Luís Bragança, Philip Griffiths, Rand Askar, Adriana Salles, Viorel Ungureanu, Katerina Tsikaloudaki, Diana Bajare, Gabriel Zsembinszki, Meri Cvetkovska, 2024-10-31 This open access book offers a comprehensive exploration of Circular Economy Design and Management within the Built Environment presenting a critical review of the current state of the art Going through multi level approaches from material usage to urban planning it meticulously examines strategies for circular building design criteria and indicators for circularity Additionally it explores practical tools and frameworks as well as roles and relationships of stakeholders along the entire value chain Through insightful case studies and critical analysis readers gain a deep understanding of circularity principles and applications circularity management models and feedback systems sustainable practices and the integration of circularity into technological advancements and digital tools such as BIM The importance of this book lies in addressing pressing challenges in contemporary architecture and construction providing a roadmap for sustainable circular solutions It tackles the critical need to transition from linear to circular practices emphasising resource efficiency waste reduction and the longevity of structures By offering practical insights and highlighting successful implementations the book aims to guide architects civil engineers designers sustainability professionals and policymakers towards informed decision making in creating environmentally conscious built environments Designed for these professionals and researchers this book serves as a valuable resource for anyone passionate about reshaping the future of our built spaces with a focus on circularity and environmental responsibility

Contemporary Trends in the Regenerative and Sustainable Built Environment Marjan Sarshar Driscoll, Anton Ianakiev, Begum Sertyesilisik, 2015 [**Sustainability Certifications, Labels and Tools in the Built Environment**](#) Francesco Asdrubali, Umberto Berardi, 2025-06-30 This book is aimed at covering all aspects of the evaluation certification and reduction of the energy and carbon footprint of the built environment from the scale of the city and its neighbourhoods to the building level and finally to the level of single building materials and components Many protocols tools and labels have been proposed in recent years both at international and local levels and the aim of the book is to classify describe and discuss all the different approaches and options The chapters offer a comprehensive up to date and critical review of all the different certification methods that have been proposed at different levels in the building sector The first chapter introduces the topic and its importance providing data on the impact of the building sector and the construction industry The following chapters are dedicated respectively to tools and protocols for cities and neighbourhood sustainability assessment tools and protocols

for buildings sustainability assessment and certification and for building materials and components Finally this book includes an overview of the legislation and standards in the field and case studies to exemplify the application of the different tools and labels This is a key reference for decision makers researchers scholars students and professionals approaching research and work in the field of energy and environmental impact of the building sector be they engineers architects planners owners developers or facility managers

Technology, Design and Process Innovation in the Built Environment Peter Newton,Keith Hampson,Robin Drogemuller,2009-02-09 Making buildings and infrastructure more sustainable represents a key and global challenge This presents the results of research from the Australia Co operative Research Centre for Construction Innovation covering four themes applied to regeneration as well as to new build Sustainable Materials and Manufactures Virtual Design Construction and Management Integrating Design Construction and Facility Management over the Project Life Cycle and Integration across spatial scales
