*Temples of the African Gods* Michael Tellinger, Johan Heine, 2009 Archaeologists have recently discovered that the first civilization were also the people who carved the first Horus bird the first Sphinx built the first pyramids and built an accurate stone calendar right in the heart of it all Adam's Calendar is the flagship among millions of circular stone ruins ancient roads agricultural terraces and thousands of ancient mines left behind by a vanished civilisation which we now call the First People They carved detailed images into the hardest rock worshipped the sun and are the first to carve an image of the Egyptian Ankh key of life and universal knowledge 200 000 years before the Egyptians came to light This book graphically exposes these discoveries and will be the catalyst for rewriting our ancient human history The book is a continuation of Tellinger's previous books *Slave Species of God* and *Adam's Calendar* Publisher description

**Temples of The African Gods** Michael Tellinger, 2021-04-06 South Africa and Zimbabwe are home to the largest cluster of ancient stone ruins found to date on Earth Adam's Calendar is at the centre of it all the oldest functioning megalithic Sun Calendar found to date Since 2007 more than 5 million circular stone structures have been identified by Michael Tellinger and a small group of independent researchers These structures are not stand alone stone circles they are all connected to each other by channels of stone and held in a large mesh of agricultural terraces that cover entire mountains and resembles a never ending spider's web The great mystery is that the original stone structures have no doors or entrances indicating that they were not originally constructed as dwellings for people or animals Additional research and the discovery of mysterious tools and artefacts indicate that the builders had an advanced knowledge of Cymatics study of sound and knew how to use sound as a tool Together with many ancient gold mines all this activity has been dated with various scientific techniques to well over 100 000 years and provides much support for the presence of the Sumerian Anunnaki on Earth mining gold in Southern Africa A place often referred to as the ABZU Scholars have told us that the first civilization on Earth emerged in a land called Sumer some 6000 years ago These archaeological findings in southern Africa suggest that the Sumerians inherited much of their knowledge from an earlier civilization that emerged many thousands of years before them in southern Africa the cradle of humankind
