## **Terrorizing Ourselves:**

**Terrorizing Ourselves** Benjamin Friedman, Jim Harper, Christopher Preble, 2010-06-16 The authors and outlooks collected in this volume represent the clearest most realistic most penetrating thought about America's response to terrorist threats. The wider the audience is for views like these the closer the country will come to an effective sustainable policy for protecting its people and defending its values. JAMES FALLOWS National Correspondent Atlantic Monthly *A Journey to Enlightenment* Linda Abrams, 2012-07-10 A JOURNEY TO ENLIGHTENMENT is a journey to the light within each of us. Most people instinctively know there is a greater power at the core of creation. We have named that power God and have created many religions to celebrate God. Religions at their basis teach love and the Golden Rule but unfortunately because mankind has interjected their opinions into the mix there has been great separation between religions and people on this planet. Most of the wars have been fought because of the differences in interpretation that religions have. Each religion believes they are the one true path to God. But with all of the many religions which one is the one true way? We have learned to give our power to people outside of ourselves thus making ourselves powerless. It is time we turned within to the power inside of each of us our heart Soul and God within. For it is there and only there that our true power lies. God is not outside of us as many religions have inferred. When we wake up and remember our authentic self as an aspect of the Creator is when the Journey to Enlightenment happens. We are much more than these bodies we inhabit. We are an Eternal Spirit focused in these human forms having a human experience with powers and abilities far beyond our imagining. One of these powers is the ability to co-create with all of creation. Have you heard the expression Thoughts become things? What we think goes forth from us and it takes form in this world we live in. At this time we are moving from the third dimensional frequency to the fifth which is assisting us to remembering our Divine self. Allow me to assist you on your Journey To Enlightenment. **Battle for Our Minds** Michael Widlanski, 2012-03-06 From political communications expert Dr Michael Widlanski comes a rich and detailed portrayal of how intellectual arrogance and complacency in our government has led to a failure to effectively use counter terrorism intelligence. When 3 000 people were murdered in simultaneous terror attacks on September 11 2001 The New York Times said the attacks came out of the blue. Nothing could be further from the truth. Arab Islamic terrorists had been attacking the West for a decade in Arabia and Africa but the attacks began to focus on America itself with the World Trade Center strike in 1993. Dr Michael Widlanski describes other attacks and plots that were largely forgiven ignored or botched by academia media and government in this provocative book. He paints a chilling portrait of how our top analytical institutions were unaware as terrorists bragged about their plans in mosques in New York and New Jersey while professors the media the FBI the CIA and CNN all dropped the ball. Terrorists want to get into our head not into our house. Their goal is not seizing territory but rather controlling the mind including manipulating communication and public opinion. Combating terror means fighting on the battlefield of the mind. **Battle for Our Minds** confronts this battle and shows how the West has

been defeating itself Timely informative and thoroughly researched this is an eye opening portrayal of the top echelons of our country s counter terrorism system      Love Yourself, Love Your Life AP Filosa, Psy.
