**Advances in Applied Economic Research** Nicholas Tsounis, Aspasia Vlachvei, 2017-06-07 This proceedings volume aims to provide new research methods theories and applications from various areas of applied economic research. Featuring papers from the 2016 International Conference on Applied Economics ICOAE organized by the University of Nicosia and the Western Macedonia University of Applied Sciences this volume presents cutting edge research from all areas of economic science that use applied econometrics as the method of analysis. It also features country specific studies with specific economic policy analyses and proposals. Applied economics is a rapidly growing field of economics that combines economic theory with econometrics to analyse economic problems of the real world usually with economic policy interest. ICOAE is an annual conference started in 2008 with the aim to bring together economists from different fields of applied economic research in order to share methods and ideas. The goal of the conference and the enclosed papers is to allow for an exchange of experiences with different applied econometric methods and to promote joint initiatives among well established fields like macro and microeconomics, international economics, finance, agricultural economics, health economics, education, economics, international trade theory and management and marketing strategies. Featuring global contributions this book will be of interest to researchers, academics, professionals and policy makers in the field of applied economics and econometrics.

*Wrecking Ball* Stu Woolman, 2021-04-29 Wrecking Ball explores in an unprecedented manner a decalogue of wicked problems that confronts humanity. Nuclear proliferation, climate change, pandemics, permanent technological unemployment, Orwellian public and private surveillance, social media that distorts reality, cyberwarfare, the fragmentation of democracies, the inability of nations to cabin private power, the failure of multinational institutions to promote collaboration and the deepening of autocratic rule in countries that have never known anything but extractive institutions. Collectively or even severally these wicked problems constitute crises that could end civilisation. Does this list frighten you or do you blithely assume that tomorrow will be just like yesterday? Wrecking Ball shows that without an inclusive system of global governance the collective action required to solve those wicked problems falls beyond the remit of the world's 20 inclusive democracies, 50 flawed democracies and 130 extractive, elitist autocracies. Flawed democracies and autocracies that already struggle to produce goods necessary for their own citizens to flourish are simply incapable of committing to international arrangements that address the existential threats posed by the decalogue of wicked problems. This then is our children's inheritance. Dystopias far far worse than the polities that we ourselves have known. What if anything can mitigate the harms that are our legacy? Wrecking Ball offers as an answer a ground breaking analysis of South Africa's political economy. It demonstrates that this country's elitist and extractive political and economic institutions not only make resolution of ongoing domestic crises unattainable, likewise they make meaningful responses to wicked problems impossible. Smart people think they have all the answers. Without laboring under any such illusions Martin Luther King Jr eloquently opined The arc of the moral universe is

long but it bends towards justice But what will happen King would acidly ask if we continue to dawdle and simply run out of time Wrecking Ball similalry operates under no such smart pretenses and undeterred and unmatched ventures into terrains traversed by truly great political economists Smith Ricardo Marx and Keynes By knitting together what we all know to be the facts with cutting edge theory in economics sociology history and political science the book paints an unflinching portrait of where we are and where we are headed Are we ready to be honest with ourselves about the likely future of this overheated overpopulated planet
