**The Cannibal Within** Lewis F. Petrinovich, The Cannibal Within offers an evolutionary account of the propensity of human beings in extreme circumstances to eat other human beings despite the strong Western taboo against such practices What sets this volume apart from the large body of literature on cannibalism both popular and anthropological is the underlying premise cannibalism as an alternative to starvation is tacitly condoned by the same biological morality that would condemn cannibalism of other sorts in non threatening situations Deep as the taboos may be the survival instinct runs even deeper The title of the book reflects the author's belief that cannibalism is not a pathology that erupts in psychotic individuals but is a universal adaptive strategy that is evolutionarily sound The cannibal is within all of us and cannibals are within all cultures should the circumstances demand cannibalism's appearance and usage Petrinovich's work is rich in historical detail and rises to a level of theoretical sophistication in addressing a subject too often dealt with in sensationalist terms The major instances in which survival cannibalism has occurred convinced the author that there is a consistent pattern and a uniform regularity of order in which different kinds of individuals are consumed In considering who eats whom when and under what circumstances this regularity appears and it is consistent with what would be expected on the basis of evolutionary or Darwinian theory In short he concludes that starvation cannibalism is not a manifestation of the chaotic psychotic behavior of individuals who are driven to madness but reveals underlying characteristics of evolved human beings Lewis Petrinovich is

Darkover,2013-07-17 A cookbook more like the days gone bye bye Over 100 recipes that are made the old way before people started counting calories carbs and all the other killer things Any Doctor will cringe at most of these recipes but they will also tell you that if it is a once in a while thing that a splurge is OK Some are bad no no's just plain killer some are so so and some are pretty good for you The common thing is they are GREAT These recipes are not heavy on the heat but you can easily add to the recipes Use the blank space at the bottom of the recipes to make notes Most of them are simple and try to keep the ingredients few There is a chapter for cat and dog meals and treats The chapter Things You Need has recipes that you can use for more than the base recipes in the book bread bowls croutons Nacho chips and more You will see I am biased a bit towards bacon and rice ENJOY **The Binge Watcher's Guide to The Twilight Zone: An Unofficial Journey** Jacob Trussell,2021-05-10 You unlock this door with the key of imagination Beyond it is another dimension a dimension of sound a dimension of sight a dimension of mind There are a lot of compendiums on The Twilight Zone out there most offering a backstage peek at the ins and outs of producing this seminal genre series The Binge Watcher's Guide to The Twilight Zone will offer you something these other books do not a microscopic look into the themes and ideas that Rod Serling weaved into his landmark show to give you a deeper understanding of why The Twilight Zone still resonates with audiences over 60 years later This guide will examine how the socio political turmoil of the early 1960s the global anxiety over nuclear power and the looming specter of trauma in post war America influenced Serling to use The Twilight Zone as a bully pulpit pushing back against social ills from racism and censorship to McCarthyism and totalitarianism Whether this is your first trip to the Zone or you're an old fan returning for one more round this retrospective is an opportunity to engage with the timeless classic in a way that can help you make sense of our here and now You're moving into a land of both shadow and substance of things and ideas You've just crossed over into the Twilight Zone **Philosophy in The Twilight Zone** Noël Carroll,Lester H.
