This is to say does it have a purpose and a nature that is encoded in the very construct of the universe? These are the questions the author takes up in this day and age where most everything is up for grabs. This writing is not without an examination of sensitive issues and explicit terms. Think of it as a third way if you will. It resides between the fixed identity of our declining religions and the fluid identity of the emerging L G B T Q movement. In that it presents to us all another choice. In the end it is about a construct for sexual balance that any reader can understand and use as a guide for his or her life.
