Safety regulations

Every country (state) has its own safety regulations. It is the obligation of the operator to know and follow these.

This also applies to local regulations and regulations for different types of operation. Local safety regulations in your country must always be followed, regardless of what is written in this manual.

The symbol below is shown at various points in the manual together with a warning statement and it means:

WARNING!

Warning, be alert! Your safety is involved!
To ignore the risks may lead to an accident, serious injuries or death.
It is the obligation of the operator to make sure that all warning decals are in place on the machine and that they are readable. Accidents may otherwise occur.

Get to know the capacity and limits of your machine!
