Young People and Social Media: Contemporary Children's Digital Culture Steve Gennaro, Blair Miller, 2021-10-05 Young People and Social Media Contemporary Children's Digital Culture explores the practices relationships consequences benefits and outcomes of children's experiences with on and through social media by bringing together a vast array of different ideas about childhood youth and young people's lives These ideas are drawn from scholars working in a variety of disciplines and rather than just describing the social construction of childhood or an understanding of children's lives this collection seeks to encapsulate not only how young people exist on social media but also how their physical lives are impacted by their presence on social media One of the aims of this volume in exploring youth interaction with social media is to unpack the structuring of digital technologies in terms of how young people access the technology to use it as a means of communication a platform for identification and a tool for participation in their larger social world During longstanding and continued experience in the broad field of youth and digital culture we have come to realize that not only is the subject matter increasing in importance at an immeasurable rate but the amount of textbooks and or edited collections has lagged behind considerably There is a lack of sources that fully encapsulate the canon of texts for the discipline or the rich diversity and complexity of overlapping subject areas that create the fertile ground for studying young people's lives and culture The editors hope that this text will occupy some of that void and act as a catalyst for future interdisciplinary collections Young People and Social Media Contemporary Children's Digital Culture will appeal to undergraduate students studying Child and Youth Studies and given the interdisciplinary nature of the collection scholars researchers and students at all levels working in anthropology psychology sociology communication studies cultural studies media studies education and human rights among others Practitioners in these fields will also find this collection of particular interest *Social Networks Analysis and Mining* Luca Maria Aiello, Tanmoy Chakraborty, Sabrina Gaito, 2025-01-23 This LNCS conference 4 volume set constitutes the proceedings of the 16th International Conference on Social Networks Analysis and Mining ASONAM 2024 in Rende Italy during September 2-5 2024 The 33 full papers together with 36 short papers included in this volume were carefully reviewed and selected from 167 submissions The conference covers a wide spectrum of research contributions to the foundations and applications of social networks *Body Image Law* Marilyn Bromberg, 2025-10-20 This book examines the effectiveness and limitations of existing body image law and proposes evidence based regulatory alternatives informed by public health and psychology research Poor body image affects millions of people worldwide and despite the body positivity movement the pressure on women in Western countries to have smaller bodies continues to cause significant harm to many This book contributes to improving this through drawing on evidence from research which outlines the harm excessive social media use and exposure to models with smaller bodies can cause to an individual's body image It explores the regulatory efforts of governments in Israel France and Norway which passed Body Image Laws and failed attempts to pass bills in this area in

Canada the United Kingdom Brazil and the United States This book analyses the outcome of BMI requirements for catwalk fashion models warning messages on digitally altered images and prosecuting pro anorexia content creators It asks why the current forms of body image law do not align with significant findings from public health and psychology This book offers a compelling evidence based overview of body image as it intersects with law It argues that body image law in its current form is unlikely to be effective and makes suggestions for evidence based approaches instead This book will be of interest to researchers concerned with body image and the law as it relates to public health law social media law and advertising law and anyone who has poor body image an eating disorder or knows someone who has **ICRMH 2019** Rena Latifa, Solicha Solicha, Ilmi Amalia, Desi Yustari, Yusuf Durachman, 2019-09-18 As an annual event International Conference on Religion and Mental Health ICRMH 2019 continued the agenda to bring together researcher academics experts and professionals in examining selected theme by applying multidisciplinary approaches In 2019 this event will be held in 18 19 September at Auditorium Faculty of Psychology Syarif Hidayatullah State Islamic University Jakarta The conference from any kind of stakeholders related with Religion Psychology Social Political and Social Related Studies Each contributed paper was refereed before being accepted for publication The double blind peer reviewed was used in the paper selection
