The Culture-Breast in Psychoanalysis

Noreen Giffney, 2021-04-25 We are fed at the breast of culture not wholly but to differing degrees The Culture Breast in Psychoanalysis Cultural Experiences and the Clinic focuses on the formative influence of cultural objects in our lives and the contribution such experiences make to our mental health and overall wellbeing The book introduces the culture breast a new clinical concept to explore the central importance played by cultural objects in the psychical lives of patients and psychoanalytic clinical practitioners inside and outside the consulting room Bringing together clinical writings from psychoanalysis and cultural objects from the applied fields of film art literature and music the book also makes an argument for the usefulness of encounters with cultural objects as non clinical case studies in the training and further professional development of psychoanalysts and psychotherapists Through its engagement with psychosocial studies this text furthermore interrogates challenges and offers a way through a hierarchical split that has become established in psychoanalysis between

clinical psychoanalysis and applied psychoanalysis Combining approaches used in clinical academic and arts settings The Culture Breast in Psychoanalysis is an essential resource for clinical practitioners of psychoanalysis psychotherapy counselling psychology and psychiatry It will also be of interest to researchers and practitioners in the fields of psychosocial studies sociology social work cultural studies and the creative and performing arts **The Zen of Therapy** Mark Epstein, M.D.,2023-01-10 A warm profound and cleareyed memoir this wise and sympathetic book s lingering effect is as a reminder that a deeper and more companionable way of life lurks behind our self serious stories Oliver Burkeman New York Times Book Review Drawing on decades of personal and professional experience Dr Mark Epstein considers how his practice of psychotherapy and meditation can be used in tandem to lead his patients and himself to greater awareness and fulfillment For much of his career Dr Mark Epstein kept his beliefs as a Buddhist separate from his work as a psychiatrist But as he became more forthcoming with his patients about his personal spiritual leanings he was surprised to find how many of them were eager to learn more The divisions between the psychological emotional and the spiritual he soon realized were not as distinct as one might think In The Zen of Therapy Dr Epstein reflects on a year s worth of selected sessions with his patients and observes how in a given hour his Buddhist background influences his work He emphasizes how Western therapy can be considered a two person meditation and how mindfulness much like a good therapist can hold awareness creating the necessary conditions for inner peace Throughout this deeply personal and wise inquiry Dr Epstein illuminates the therapy relationship as a spiritual friendship and reveals how a therapist can help us realize that there is something magical running through our fraught lives For when we understand how readily we have misinterpreted ourselves when we touch the ground of our own being we come home **The Call Of Solitude** Ester Schaler Buchholz,1999-08 This book based on the author s developmental and clinical psychoanalytic study is about the positive effects of spending time alone and the difficulties and negative connotations associated with this need in busy modern society From back cover Loss, Grief and Transformation Shoshana Ringel,2021-10-21 This book is a timely and relevant book for psychotherapists and psychoanalysts who process loss both in their own lives and in the lives of their patients offering perspectives from a range of theoretical backgrounds clinical vignettes and personal insights This volume addresses the scope of grief and mourning between the therapeutic dyad and carefully examines how the patient and therapist experience intersect and imbue the analytic space and the therapeutic process The book examines personal loss of parents and partners as well as loss generated by mass trauma through the lens of the Holocaust the immigrant experience the COVID 19 pandemic and the environment There are chapters that cover how the lost other continues to live within one s mind and within the analytic relationship how loss impacts one s internal self system and how loss associated with traumatic experience with the deceased continues to reverberate With a unique focus on the therapist s personal experience of loss and how it shapes the clinical situation as well as a broad range of perspectives on managing and working with loss in patients this is an invaluable book for all practicing psychoanalysts and
