Home/Schooling Kyle Greenwalt, 2016-03-22 During the nineteenth century social reformers took hold of an already existing institution the school and sought to make it compulsory In the process they supplanted parents and domestic life the home as the primary educational force for children As education was taken out of the home American classrooms were at the same time remade into a particular kind of home life one based upon a sentimentalized maternity where love can always triumph over the public and masculine forces of competition merit and hierarchy And so love entered into the discourse of teaching In this model a good teacher loves her students She makes her classroom into a home Like a good mother she sacrifices for them enduring long hours of isolation low pay and little public support or recognition Students in their turn should love their teacher To please her they should learn the values that would sustain a more virtuous republic Parenting through all of this was redefined as a private activity Battle lines were drawn and the stakes were love learning and control It doesn't need to be this way It is time to rethink the ways in which parents and teachers interact with one another It is time to redefine homeschooling as something all families engage in and that all public schools should seek to support

Protecting Our Kids? Emily Horowitz, 2015-04-21 This thought provoking work raises important questions about sex offender laws drawing from personal stories research and data to prove the policies promote fear destroy lives and fail to protect children Do sex offender laws protect children or are they inherently unfair practices that at their worst promote vigilante justice The latter this book argues By analyzing the social political historical and cultural context surrounding the emergence of current sex offender policies and laws the work shows how sex offenders have come to loom as greater than life monsters when in many cases that is not true at all Looking at its subject from a fresh viewpoint the book shares research and new analyses of data and qualitative evidence to show how sex offender laws are not only ineffective but engender destructive fear and anxiety To help readers understand the impact of these laws the author presents interviews with sex offenders and their families as they describe the day to day reality of living on the sex offender registry Citing research and statistics the book challenges the idea that sex offenders must be continually monitored and publicly identified because they are incurably predatory Most important the study shows that undue sex offender panic is preventing policymakers from addressing the true threats to children poverty and growing inequality
