Strategy Maps Robert S. Kaplan, David P. Norton, 2003-12-16 More than a decade ago Robert S Kaplan and David P Norton introduced the Balanced Scorecard a revolutionary performance measurement system that allowed organizations to quantify intangible assets such as people information and customer relationships Then in The Strategy Focused Organization Kaplan and Norton showed how organizations achieved breakthrough performance with a management system that put the Balanced Scorecard into action Now using their ongoing research with hundreds of Balanced Scorecard adopters across the globe the authors have created a powerful new tool the strategy map that enables companies to describe the links between intangible assets and value creation with a clarity and precision never before possible Kaplan and Norton argue that the most critical aspect of strategy implementing it in a way that ensures sustained value creation depends on managing four key internal processes operations customer relationships innovation and regulatory and social processes The authors show how companies can use strategy maps to link those processes to desired outcomes evaluate measure and improve the processes most critical to success and target investments in human informational and organizational capital Providing a visual aha for executives everywhere who can't figure out why their strategy isn't working Strategy Maps is a blueprint any organization can follow to align processes people and information technology for superior performance *Strategy Maps: Introduction; 2 Strategy Maps; 3 Operations Management Processes; 4 Customer Management; 5 Innovation Processes; 6 Managing Regulatory and Societal Processes; 7 Aligning Intangible Assets to Enterprise Strategy; 8 Human Capital Readiness; 9 Information Capital Readiness; 10 Organization Capital; 11 Customizing Your Strategy Map to Your Strategy; 12 Planning the Campaign* Robert S. Kaplan, 2004 Strategy Maps takes readers to the next level of precision in strategy implementation Strategy Maps introduces a new tool that has evolved from Robert Kaplan and David Norton's ongoing research with hundreds of Balanced Scorecard adopters across the globe and its premise is simple if you can visually map your strategy the people within your organization will better understand it and therefore be better able to execute it effectively It offers a visual cause and effect explanation of what's working and what doesn't in a way that everyone in the company can understand It helps get the entire organization involved in strategy Strategy Maps Converting Intangible Assets Into Tangible Outcomes , **Strategy Maps** , 2018 More than a decade ago Robert S Kaplan and David P Norton introduced the Balanced Scorecard a revolutionary performance measurement system that allowed organizations to quantify intangible assets such as people information and customer relationships Then in The Strategy Focused Organization Kaplan and Norton showed how organizations achieved breakthrough performance with a management system that put the Balanced Scorecard into action Now using their ongoing research with hundreds of Balanced Scorecard adopters across the globe the authors have created a powerful new tool the strategy map that enables companies to describe the links between intangible assets and value creation with a clarity and precision never before possible Kaplan and Norton argue that the most critical aspect of
