Strength In Numbers Collaborative Learning In Secondary Mathematics:

Strength in Numbers Ilana Seidel Horn, 2012 Written by a seasoned teacher researcher and teacher educator with over two decades of teaching experience the goal of this book is to support teachers in developing tools for effective group work in their secondary mathematics classrooms Effective group work engages children's own thinking and allows them to work together to understand a concept It can also address problems that often arise in typical mathematics instruction by providing a framework for teachers to create engaging learning environments The book outlines ways to choose tasks help students adjust to new ways of approaching schoolwork and discusses the types of status problems that can impede the most earnest attempts at collaborative learning This practical useful book introduces tested tools and concepts for creating equitable collaborative learning environments that supports all students and develops confidence in their mathematical ability *Mathematics for Equity* Na'ilah Suad Nasir, Carlos Cabana, Barbara Shreve, Estelle Woodbury, Nicole

Louie, 2014-12-04 In this book nationally renowned scholars join classroom teachers to share equity oriented approaches that have been successful with urban high school mathematics students Compiling for the first time major research findings and practitioner experiences from Railside High School the volume describes the evolution of a fundamentally different conception of learners and teaching The chapters bring together research and reflection on teacher collaboration and professional community student outcomes and mathematics classroom culture reform curricula and pedagogy and ongoing teacher development *Mathematics for Equity* will be invaluable reading for teachers schools and districts interested in maintaining a focus on equity and improving student learning while making sense of the new demands of the Common Core State Standards Book Features Core principles of an equity centered mathematics program Examples of how to focus and organize the collaborative work of a math department to develop a shared pedagogy Student experiences with an equity pedagogy that focuses on building perseverance flexibility in thinking and deep conceptual understanding Connections between reconceptualizing learners and teaching and achieving deep mathematics learning and equitable outcomes Contributors include Jo Boaler Ilana Seidel Horn Judith Warren Little and Rachel Lotan *Mathematics for Equity* provides a kaleidoscopic view in the voices of teachers researchers and students themselves of one of the nation's most ambitious and successful attempts at teaching mathematics for equity It shows what it takes to create a climate that supports students and teachers in engaging in meaningful mathematical activity and alas how vulnerable such environments are to the wrong kinds of accountability Read it and learn Alan H Schoenfeld University of California at Berkeley Want to fix what's wrong with mathematics instruction in your school Read this book with your colleagues and do what it inspires you to do Written by the brave teachers and former students who did it as well as researchers Phil Daro writing team Common Core Standards Strategic Education Research Partnership **Clothesline Math: The Master Number Sense Maker** Chris
