## **Apple Music 2025 Store Hours:**

*Designing the Music Business* Guy Morrow, 2020-06-10 This book addresses the neglect of visual creativities and content and how these are commercialised in the music industries While musical and visual creativities drive growth there is a lack of literature relating to the visual side of the music business which is significant given that the production of meaning and value within this business occurs across a number of textual sites Popular music is a multimedia discursive fluid and expansive cultural form that in addition to the music itself includes album covers gig and tour posters music videos set stage and lighting designs live concert footage websites virtual reality augmented reality technologies merchandise designs and other forms of visual content As a result it has become impossible to understand the meaning and value of music without considering its relation to these visual components and to the interrelationships between them Using design culture theory participant observation interviews case studies and a visual methodology to explore the topic this research based book is a valuable study aid for undergraduate and postgraduate students of subjects including the music business design arts management creative and cultural industries studies business and management studies and media and communications
