changing standards of femininity and understandings of class gender and race from 1890 to 1930 As ready made garments  
became increasingly available due to industrialization many women out of necessity or choice continued to make their own  
clothing In doing so women used a customary female skill both as a means of supporting traditional ideas and as a tool of  
personal agency The shifting meanings of sewing formed a contested space in which businesses promoted sewing machines  
as tools for maintaining domestic harmony women interpreted patterns to suit or flout definitions of appropriate appearances  
and girls were taught to sew in ways that reflected beliefs about class race and region Unlike studies of clothing that focus  
on changes in fashion Make it Yourself looks at the social and cultural processes surrounding home production Gordon  
examines sewing clothing as work whether resented or enjoyed and the function of that work for families and individuals  
from a range of backgrounds Another unique element is Gordon s use of an unusually wide variety of source materials from  
diaries photographs and government pamphlets to tissue paper patterns dresses sewing workbooks and paper dolls This  
hands on approach combined with an accessible writing style connects the reader to the women and girls who are at the  
heart of her study Altogether Make it Yourself provides a new perspective on a widespread yet often neglected form of  
women s work      *Catalog of Copyright Entries* Library of Congress. Copyright Office, 1921      [Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ...](#)
