The Number Devil: Continued!

Task: Below, you will find a list of math concepts that we have either already covered this year, that we will be covering later in the year, or that will come up shortly after your transition to middle school. You are being tasked with writing an additional chapter (1.5-3 pages) to Robert's story.

Requirements: Your chapter should be written IN CHARACTER and follow along with the style of the book. You will be given time in class to research aspects of your math concept. Try to come up with creative names and ways to explain it, just like the number devil in the book! Illustrations are not required, but would make a great addition to your chapter.

"Bonus": On your rubric, I have given you the opportunity to earn bonus points. I want to challenge each and every one of you to take advantage of the bonus opportunity. You will provide a brief historical background of the creator of your math concept (2 paragraphs, only certain concepts have a specified mathematician). This could include things like where they are from, how they came to be a mathematician, when they were born/died, if their concept was popular while they were alive, etc.
