The Jews and the Nation Frederic Jager,2009-01-10 This book is the first systematic

comparison of the civic integration of Jews in the United States and France specifically from the two countries revolutions through the American republic and the Napoleonic era 1775 1815 Frederic Jaffer develops a vehicle for a broader and uniquely rich analysis of French and American nation building and political culture He returns grand theory to historical scholarship by examining the Jewish encounter with state formation and Jewish acquisition of civic equality from the perspective of the paradigm of liberal inclusiveness as formulated by Alexis de Tocqueville and Louis Hartz Jaffer argues that the liberal paradigm worked for American Jews but that France's illiberal impulses hindered its Jewish population in acquiring full civic rights He also explores the relevance of the Tocqueville Hartz theory for other marginalized groups particularly blacks and women in France and America However the experience of these groups suggests that the theory has its limits A central issue of this penetrating study is whether a state with democratic liberal pretensions America can better protect the rights of marginalized enclaves than can a state with authoritarian tendencies France The Tocqueville Hartz thesis has become a major issue in political science and this book marks the first time it has been tested in a historical study The Jews and the Nation returns a unifying theory to a discipline fragmented by microtopical scholarship **The Routledge**
