Teaching Learners who Struggle with Mathematics Helene J. Sherman,Lloyd I. Richardson,George J. Yard,2009 This book was written to give teachers the tools they need to help students go from believing they can't do math to achieving real success and gaining confidence in their math skills This can be accomplished if parents and teachers instead of trying the same thing over and over again focus on how their students learn best To do this the authors present a systematic three step approach on how to assess student's strengths and weaknesses and then plan instruction accordingly The three step plan involves 1 Creating a Data Analysis Sheet DAS 2 Considering the learners strengths and areas of concern 3 Completing a Mathematics Improvement Plan MIP Each chapter deals with a different mathematical topic place value problem solving fractions addition subtraction division decimals time and money etc A number of errors by a variety of students are described using a case study of a typical struggling student The text then explains how teachers can systematically assess the student's

work and appropriately diagnose their problems By analyzing and understanding why and how their students make errors teachers can design appropriate ways to correct their mistakes and then promote long term learning through repetition and practice that is meaningful to them This book addresses mathematics education in a manner that encourages positive content growth and attitude for both teachers and students *PC Magazine* ,2004 **Mathematics** Barry Max Brandenberger,2002 This new series offers the most comprehensive views of key areas in the world of science Each set explores all facets of the topic offering not only descriptive and analytical information but also cultural and ethical issues and career opportunities in many fields of science **Glencoe Mathematics** ,2001 *Asian Sources Gifts & Home Products* ,2000 **New Formulas for America's Workforce** National Science Foundation (NSF),2003 This book collects together approximately 200 descriptions and summaries of a wide range of projects carried out over nearly 10 years of NSF funded Gender Diversity in STEM Education programs that were set up to address the problems of women and girls in science and technology A good source of ideas See also the website **Pico Laptops & Portables** ,1988-05 **The Australian Mathematics Teacher** ,2005
