Content in this book is appropriate for any plan examiners in fire prevention divisions, fire marshal bureaus, building departments, and community risk reduction organizations. Plan Examiner II requires an in-depth review of sprinkler and fire alarm shop drawings, and these are not included in this book. Four hundred and twenty key terms and definitions are highlighted throughout the book and are included in the glossary. The book features updated photos and illustrations. A sample set of blueprints are referenced in the book and are available to purchase in a package with the text. This text book is used frequently in higher education classes as well as courses to meet the requirements for fire service professional qualifications certification. The author is Ed Prendergast, a well-respected Fire Protection Engineer. He retired from the Chicago Fire Department as the Chief Engineer of the Bureau of Fire Prevention after 30 years of service.
