Mandrum, **Home Study Blue Book** National Home Study Council, Washington, D.C.,1950 **How to Study and What to Study (1915)** Richard Lanning Sandwick,2008-06-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work **Becoming A Master Student and Telecourse Study Guide, Ninth Edition** David Ellis,2000-01-01 How to Study George Fillmore Swain,2020-08-24 Education is an opportunity nothing more It will not guarantee success or happiness or contentment or riches Everything depends upon what development is produced by it and what use is made of it It does not mean morality or usefulness It may make a man more capable of doing harm in the world for an educated scoundrel is clearly more dangerous than an ignorant one Properly employed however and combined with high character with a due regard for the rights of others and with simple and practicable but high ideals it should help a man very greatly in making himself of service in the world and so in making his life really successful in the highest sense What the student gets out of his education depends largely upon what he puts into it The student is not an empty vessel to be pumped full of learning he is a complex machine which education should help to run properly The aim of education is purely utilitarian and is expressed more clearly by the word power than by any other Its object is to give the man power to meet the problems of life and to develop all his faculties to the greatest degree The word utilitarian however is to be interpreted in its broadest sense It is not simply bread and butter utility that is aimed at Whatever makes a man more capable of legitimate enjoyment or helps to make him contented and happy or to enlarge his breadth of view is really useful and helps to give him power The true order of learning should be first what is necessary

second what is useful and third what is ornamental To reverse this arrangement is like beginning to build at the top of the edifice
