Women Feminism And Aging Springer Series Focus On Women:

Women Ageing Miriam Bernard, Val Harding Davies, Linda Machin, Judith Phillips, 2005-06-22 Women Ageing provides a better understanding of what ageing is like for women and challenges the myths which have grown up around the ageing process. Blending the scholarly, the personal and the political, it reveals the range of strategies and identities women adopt to manage the transitions of the second half of the life course. In doing so, it uncovers not only the commonalities and the similarities between mid life and older women but also some of the variation and diversity relating to ethnicity and race, class, disability and sexual orientation. Women Ageing makes the ordinary lives of ordinary women as, in this instance, they grow older more visible. Its findings have important implications for policy and practice. All those studying or working with older people will find it an illuminating text.

Women, Feminism, and Aging Colette Browne, 1998 In this volume Dr Browne outlines a new vision for understanding older women and their place in society. The author draws together the major themes of feminist writers and thinkers and develops alternatives to the present devaluing of older women, reconceptualizing what growing older can mean to women. She suggests a number of strategies to improve the lives of older women and ultimately looks to a new epistemology of women and age for a more respectful vision of women and men in the later years. The volume's style will appeal to professionals and students in social work and sociology.

Aging Mothers and Their Adult Daughters Karen L. Fingerman, 2001-01-04 As far as I am aware, there is no other scholarly book on adult mother-daughter relationships, particularly one that incorporates data from pairs of mothers and daughters. I believe that the contents provide useful material for instructors, researchers, and therapists alike. Rosemary Blieszner, PhD, Professor of Gerontology and Family Studies, Virginia Polytechnic Institute and State University. The mother-daughter tie is one that persists well past childhood and it takes on unique characteristics as daughters enter midlife and mothers enter old age. Incorporating vivid descriptions by mothers and daughters about their relationships, this book addresses both the rewards and the costs that mothers and daughters incur in maintaining their relationships into old age. For psychologists, gerontologists, and sociologists, as well as academics and researchers in women's and family studies.

work is to provide the reader with extensive references to useful and appropriate materials on women and aging. The major subject areas covered include roles and relationships, economics, employment, retirement, health, sexuality, religion, housing, racial and ethnic groups, policy issues, international concerns, and middle age. An extensive selection of general items covers materials that do not fit into specific categories but which address important areas of concern and interest. This comprehensive bibliography will be welcomed by those involved in gerontological research and women's studies.
