**The Living Diet** Martha Tatarnic,2019-04-17 The Living Diet invites us to consider our relationship to food from a Christian perspective Food can t live with it or without it We are bombarded with messages that the secret to health and weight loss can be unlocked with the right product or magic discipline but we are getting neither thinner nor happier Reports suggest that we are losing our battle with obesity while the anxiety people experience in relationship with food increases We are taught that bodies are fundamentally a problem to be solved or worse a war to be won while a misguided worldview suggests that our food choices are of concern to us alone an individual act of pleasure or consequences Few resources speak to our food problem from a distinctly Christian perspective Drawing on a rich assemblage of personal and collected stories grounded in the teachings of Jesus The Living Diet offers a joyful alternative to the desperation and dissatisfaction that have become cultural norms for both eating and body image inviting us to consider our choices in the context of community Ancient wisdom yields a surprisingly modern response to the dieting dilemma as well as to the realm of public or popular theology helping the reader discover the real joy of eating and the true gift of embodied living

**Feminist Theology and Contemporary Dieting Culture** Hannah Bacon,2019-08-08 Hannah Bacon draws on qualitative research conducted inside one UK secular commercial weight loss group to show how Christian religious forms and theological discourses inform contemporary weight loss narratives Bacon argues that notions of sin and salvation resurface in secular guise in ways that repeat well established theological meanings The slimming organization recycles the Christian terminology of sin spelt Syn and encourages members to frame weight loss in salvific terms These theological tropes lurk in the background helping to align food once more with guilt and moral weakness but they also mirror to an extent the way body policing techniques in Christianity have historically helped to cultivate self care The self breaking and self making aspects of women s Syn watching practices in the group continue certain features of historical Christianity serving in similar ways to conform women s bodies to patriarchal norms while providing opportunities for women s self development Taking into account these tensions Bacon asks what a specifically feminist theological response to weight loss might look like If ideas about sin and salvation service hegemonic discourses about fat while also empowering women to shape their own lives how might they be rethought to challenge fat phobia and the frenetic pursuit of thinness As well as naming as sin principles and practices which diminish women s appetites and bodies this book forwards a number of proposals about how salvation might be performed in our everyday eating habits and through the cultivation of fat pride It takes seriously the conviction of many women in the group that food and the body can be important sites of power wisdom and transformation but channels this insight into the construction of theologies that resist rather than reproduce thin privilege and size ist norms
