## **Women In Medieval Europe 1200 15:**

*Women in Medieval Europe 1200-1500* Jennifer Ward,2016-04-14 Women in Medieval Europe explores the key areas of female experience in the later medieval period from peasant women to Queens It considers the women of the later Middle Ages in the context of their social relationships during a time of changing opportunities and activities so that by 1500 the world of work was becoming increasingly restricted to women The chapters are arranged thematically to show the varied roles and lives of women in and out of the home covering topics such as marriage religion family and work For the second edition a new chapter draws together recent work on Jewish and Muslim women as well as those from other ethnic groups showing the wide ranging experiences of women from different backgrounds Particular attention is paid to women at work in the towns and specifically urban topics such as trade crafts healthcare and prostitution The latest research on women gender and masculinity has also been incorporated along with updated further reading recommendations This fully revised new edition is a comprehensive yet accessible introduction to the topic perfect for all those studying women in Europe in the later Middle Ages

*Women's Roles in the Middle Ages* Sandy Bardsley,2007-06-30 Information about women in this truly fascinating period from 500 to 1500 is in great demand and has been a challenge for historians to uncover Bardsley has mined a wide range of primary sources from noblewomen s writing court rolls chivalric literature laws and legal documents to archeology and artwork This fresh survey provides readers with an excellent understanding of how women high and low fared in terms of religion work family law culture and politics and public life Even though medieval women were divided by social class religion age marital status place and period they were all subject to an overarching patriarchal structure and sometimes could transcend their inferior status Numerous examples of these exceptional women and their words are included Chapter 1 examines religion focusing on women s roles in the early Christian church the lives of nuns and other professional religious women such as anchoresses and Beguines the participation of Christian laywomen and the experiences of Jewish and Islamic women in Western Europe The second chapter examines women s work looking in turn at the kinds of work performed by peasant women townswomen and noblewomen Women s roles within the family form the subject of the third chapter This chapter follows women throughout the typical lifecycle from girl to widow examining the expectations and experiences of women at each stage Chapter 4 Women and the Law focuses on the ways in which laws both restricted and protected women It also considers the crimes with which women were most often charged and surveys laws regarding marriage and widowhood Women s roles in creative arts form the basis of the fifth chapter Women and Culture This chapter examines women s roles as artists authors composers and patrons as well as investigating the ways in which women were represented in works produced by men Finally chapter 6 discusses women s experiences in politics and public life While women as a group were typically banned from holding positions of public authority some found ways to get around this stricture while others were able to exercise power behind the scenes The final chapter thus encapsulates a major theme of

this book the interplay between broader patriarchal forces that limited women's status and autonomy and the role of individuals who were able to overcome or circumvent such forces Medieval women were as a group subordinate to their husbands and fathers but certain women under certain circumstances evaded subordination

**Literary Beginnings in the European**

**Middle Ages** Mark Chinca, Christopher Young, 2022-08-25 How did new literatures begin in the Middle Ages and what does it mean to ask about such beginnings These are the questions this volume pursues across the regions and languages of medieval Europe from Iceland Scandinavia and Iberia through Irish Welsh English French Dutch Occitan German Italian Czech and Croatian to Medieval Greek and the East Slavonic of early Rus Focusing on vernacular scripted cultures and their complicated relationships with the established literary cultures of Latin Greek and Church Slavonic the volume's contributors describe the processes of emergence consolidation and institutionalization that make it possible to speak of a literary tradition in any given language Moreover by concentrating on beginnings the volume avoids the pitfalls of viewing earlier phenomena through the lens of later national developments the result is a heightened sense of the historical contingency of categories of language literature and territory in the space we call Europe

**Women in Medieval Europe: 1200-1500** J. Ward, 2002-11-30

*Medieval East Central Europe in a Comparative Perspective* Gerhard Jaritz, Katalin Szende, 2016-05-12 Medieval East Central Europe in a Comparative Perspective draws together the new perspectives concerning the relevance of East Central Europe for current historiography by placing the region in various comparative contexts The chapters compare conditions within East Central Europe as well as between East Central Europe the rest of the continent and beyond

Including 15 original chapters from an interdisciplinary team of contributors this collection begins by posing the question

What is East Central Europe with three specialists offering different interpretations and presenting new conclusions The book is then grouped into five parts which examine political practice religion urban experience and art and literature The

contributors question and explain the reasons for similarities and differences in governance and strategies for handling allies enemies or subjects in particular ways They point out themes and structures from town planning to religious orders that did

not function according to political boundaries and for which the inclusion of East Central European territories was systemic

The volume offers a new interpretation of medieval East Central Europe beyond its traditional limits in space and time and beyond the established conceptual schemes It will be essential reading for students and scholars of medieval East Central

Europe    **Guns and Men in Medieval Europe, 1200-1500** Kelly DeVries,2002 Kelly DeVries s study of medieval warfare is focused upon the men and technology of the day He discusses the evolution of technological warfare and associated areas including surgery metallurgy and the centralization of government    *Wicked Ladies* Gregory J. Durston,2014-08-11 In recent years much has been published on women crime and justice in English history However for a variety of reasons particularly the ready availability of source material for the capital such research has tended to have an overwhelmingly Metropolitan focus This book aims to redress the balance for the long eighteenth century by concentrating on women from outside the London area Although vitally important to the wider country the Metropolis always contained a small minority of the country s female offenders and defendants albeit a significantly higher percentage of the latter than its share of the national population The capital also had a rather different criminal justice and policing system to that found in the rest of the country at this time The book focuses on women s experiences in provincial England as both the perpetrators of various crimes and as suspects or defendants in the country s criminal justice system The areas considered range from the West Country to the Scottish Border and the offences examined include all of the major crimes such as murder and theft as well as some more arcane forms of deviance including arson and coining The factors that prompted women to offend their likelihood of exposure when they did so and their treatment before the courts and in the penal system are all considered in detail In particular the book examines the gendered differences found in female crime when compared to that of their male counterparts and how women s experiences of the era s justice system differed from those of men It also compares provincial women to those found in the Metropolis in these respects Extensive use is made of primary sources in portraying the lives of female criminals from Kent to Cumberland while comparison is also made with women from other parts of the British Isles and beyond so that the respective roles of structural determinants and national culture in crime and justice can be considered

Paper edition unseen 14 50 Annotation copyrighted by Book News Inc Portland OR **Negotiating Clerical Identities**

Jennifer D. Thibodeaux,2010-10-13 Clerics in the Middle Ages were subjected to differing ideals of masculinity both from within the Church and from lay society The historians in this volume interrogate the meaning of masculine identity for the medieval clergy by considering a wide range of sources time periods and geographical contexts

**Seeing and Knowing**

Anneke B. Mulder-Bakker,2004 The studies within this volume apply insights gained from gender studies to re consider the way knowledge and learning was transmitted in medieval Europe 1200 1550 Traditional scholarship has largely concentrated on the clerical and academic context of conventional learning It tended to focus on the contents and methods of formal education as well as on a small group of educational institutions from which women were excluded In this volume authors consider how learning was transmitted outside the schools in particular within women s communities They raise a range of questions how was knowledge transmitted in an oral context what varieties of knowledge were available to communities of women What kinds of learning are characteristic of such communities What techniques did women develop to preserve and transmit their knowledge and how was it valorized both within their communities and by authoritative outsiders Under what circumstances could women themselves gain authority in passing on knowledge to a wider audience

**Saints, Scholars, and Politicians**

Mathilde van Dijk,Renée Nip,2005 Over the past eighteen years gender has become a major analytical tool in medieval studies The purpose of this volume is to evaluate its use and to search for ways in which to improve and enhance its value The authors address the question of how gender relates to other tools of medieval research Several articles criticize the way in which an exclusive focus on gender tends to obscure the impact of other factors for instance class politics economy or the genre in which a source is written Other articles address wrong ways of using gender for instance monolithic or anachronistic views of what constitutes differences between men and women

**Politics and Ritual in Early Medieval Europe** Janet Laughland Nelson,1986 International Medieval Bibliography ,2009 Lists articles notes and similar

literature on medieval subjects in journals Festschriften conference proceedings and collected essays Covers all aspects of medieval studies within the date range of 450 to 1500 for the entire continent of Europe the Middle East and North Africa for the period before the Muslim conquest and parts of those areas subsequently controlled by Christian powers [History Teacher's Magazine](#) ,1917 *Isabelle of France* Sean Linscott Field,2006 In this examination of Isabelle of France s career Field addresses significant issues in medieval religious history including the possibilities for women s religious authority the creation and impact of royal sanctity
