**Women, Philanthropy, and Civil Society** Kathleen D. McCarthy, 2001-07-18 This volume which grows out of a research project on women and philanthropy sponsored by the Center for the Study of Philanthropy at the City University of New York expands our understanding of female beneficence in shaping diverse political cultures As in the United States this activity often enabled women to create parallel power structures that resembled but rarely replicated the commercial and political arenas of men From nuns who managed charitable and educational institutions to political activists demanding an end of discriminatory practices against women and children many of the women whose lives are documented in these pages claimed distinctive public roles through the nonprofit sphere The authors are from Europe the United States Latin America the Middle East Egypt India and Asia Their essays cover nations on every continent representing a variety of political and religious systems The essays in this book illustrate the extent to which government the market and religion have shaped the role of female philanthropy and philanthropists in different national settings By shifting the focus from organizations to donors and volunteers they begin to assess the relative importance of each of these factors in creating opportunities for citizen participation as well as the role of female philanthropy in opening a space for women in the public sphere From publisher's description

**of Women's Organizations, 1890-1960** A. Knupfer, C. Woyshner, 2008-03-18 This book explores women's organizations and their various educational contributions through local state and national networks from 1890 to 1960 Contributors investigate how women united to support and sustain education in both formal and informal settings and examine various associations

**Women's Culture** Kathleen D. McCarthy, 1991 Kathleen McCarthy here presents the first book length treatment of the vital role middle and upper class women played in the development of American museums in the century after 1830 By promoting undervalued areas of artistic endeavor from folk art to the avant garde such prominent individuals as Isabella Stewart Gardner Gertrude Vanderbilt Whitney and Abby Aldrich Rockefeller were able to launch national feminist reform movements forge extensive nonprofit marketing systems and feminize new occupations [Bazaar Literature](#) Leslee Thorne-Murphy, 2022-11-21 Bazaar Literature reorients our understanding of Victorian social reform fiction by reading it in light of the copious amount of literature generated for charity bazaars Bazaars were ubiquitous during the nineteenth

century part of the vibrant and massive private sector response to a rapidly industrializing society Typically organized and run by women charity bazaars were often called fancy fairs since they specialized in ladies hand crafted fancy work Indeed they were a key method women used to intervene in political social and cultural affairs Yet their conventional purpose to raise money for charity has led to their being widely overlooked and misunderstood Bazaar Literature remedies these misconceptions by demonstrating how the literature written in conjunction with bazaars shaped the social political and literary movements of its time This study draws upon a wide variety of texts printed to be sold at bazaars including literature by Robert Louis Stevenson Harriet Martineau and Elizabeth Barrett Browning alongside fictional depictions of fancy fairs by Charlotte Yonge George Eliot Frances Trollope and Anthony Trollope The book revises our understanding of the larger literary market in social reform fiction revealing a parodic self critical strain that is paradoxically braided with strident political activism and its realist sensibilities

Women and Philanthropy in Education Andrea Walton, 2005 Many of the essays focus on the individual lives of female philanthropists Olivia Sage Martha Berry Catharine Beecher and offer personal portraits of philanthropy in the nineteenth and twentieth centuries These essays provide evidence of the key role played by women in the development of philanthropy and its importance to the education of women Jacket

competition was played out on the field of philanthropy with the North American community gathering ideas from Europe
