Williams, 2007-12-24 Women the State and War looks at the intersection of gender citizenship and nationalism marriage intermarriage and how states gender that relationship and the ways in which women are used as symbols to reinforce or further nationalistic goals Women have long struggled with issues of citizenship identity and the challenge of being recognized as equal members of the community Governments use feminine imagery e g mother country to create a national identity while simultaneously minimizing the role that women play as productive contributors to the society Authors Joyce P Kaufman and Kristen P Williams examine the relationship of government and women in four different countries the United States Israel the former Yugoslavia and Northern Ireland In each case numerous similarities appear conflict plays a significant role in the definition of citizenship for women women s movements have worked in contradiction to the state and citizenship and marriage are gendered undertakings [The Oxford Handbook of Gender, War, and the Western World since 1600](#) Karen Hagemann, Stefan Dudink, Sonya O.

Rose, 2020-10-30 To date the history of military and war has focused predominantly on men as historical agents disregarding gender and its complex interrelationships with war and the military The Oxford Handbook of Gender War and the Western World since 1600 investigates how conceptions of gender have contributed to the shaping of war and the military and were transformed by them Covering the major periods in warfare since the seventeenth century the Handbook focuses on Europe and the long term processes of colonization and empire building in the Americas Asia Africa and Australia Thirty two essays written by leading international scholars explore the cultural representations of war and the military war mobilization and war experiences at home and on the battle front Essays address the gendered aftermath and memories of war as well as gendered war violence Essays also examine movements to regulate and prevent warfare the consequences of participation in the military for citizenship and challenges to ideals of Western military masculinity posed by female gay and lesbian soldiers and colonial soldiers of color The Oxford Handbook of Gender War and the Western World since 1600 offers an authoritative account of the intricate relationships between gender warfare and military culture across time and space [Gender, Race, and Power](#) Joyce P. Kaufman, Kristen P. Williams, 2024-10-02 Kaufman and Williams present critical issues in international relations through an intersectional approach that examines race gender class ethnicity and power to arrive at better explanations for such core IR issues as war and peace security human rights development and international political economy and the global environment Their approach builds on early calls amongst feminist IR theorists imploring Where are the women It is only fairly recently that students of IR have broadened the approach to the field to incorporate the dimensions of race ethnicity and class as well as gender Kaufman and Williams help guide readers exploring questions like How does gender matter for understanding war and peace How does race matter Where are the men What is intersectionality in IR How does an intersectional approach change or broaden our understanding of international relations [Ethnic Conflict](#)

Neal G. Jesse, Kristen P. Williams, 2010-02-09 As ethnic groups clash the international community faces the challenge of understanding the multiple causes of violence and formulating solutions that will bring about peace. Allowing for greater insight Jesse and Williams bridge two sub fields of political science in Ethnic Conflict, international relations and comparative politics. They systematically apply a levels of analysis framework looking at the individual, domestic and international contexts to better explore and understand its complexity. Five case study chapters apply the book's framework to disputes around the world and include coverage of Bosnia, the Israeli-Palestinian conflict, Northern Ireland, Sri Lanka and Sudan. Never losing sight of their analytical framework, the authors provide richly detailed case studies that help students understand both the unique and shared causes of each conflict. Students will appreciate the book's logical presentation and excellent pedagogical features including detailed maps that show political, demographic and cultural data. *War Echoes* Ariana E.

Vigil, 2014-07-10 *War Echoes* examines how Latina/o cultural production has engaged with U.S. militarism in the post-Vietnam era. Analyzing literature alongside film, memoir, and activism, Ariana E. Vigil highlights the productive interplay among social, political, and cultural movements while exploring Latina/o responses to U.S. intervention in Central America and the Middle East. These responses evolved over the course of the late twentieth and early twenty-first centuries from support for anti-imperial war as seen in Alejandro Murguía's *Southern Front* to the disavowal of all war articulated in works such as Demetria Martinez's *Mother Tongue* and Camilo Mejía's *Road from Ar Ramadi*. With a focus on how issues of race, class, gender, and sexuality intersect and are impacted by war and militarization, *War Echoes* illustrates how this country's bellicose foreign policies have played an integral part in shaping U.S. Latina/o culture and identity and given rise to the creation of works that recognize how militarized violence and values such as patriarchy, hierarchy, and obedience are both enacted in domestic spheres and propagated abroad. *The Devil, the Lovers, & Me* Kimberlee Auerbach, 2007 The author describes her survival of an abusive relationship, her mother's mid-life sexual proclivities, and the interference of friends and her father during a promising new romance. Challenges that prompted her visit to an atypical tarot card reader. [New Books on Women, Gender and Feminism](#), 2008
