Dialogue with Robots: Constructive Approaches for Understanding Communication Randy Gomez, Casey Kennington,Koji Inoue ,Peter Ford Dominey,Takahisa Uchida,2025-12-10

In recent years robots that have dialogues with humans have become increasingly common in our daily lives For example smart speakers and spoken dialogue systems installed in smartphones and robots that interact with people in stores have been developed Dialogue systems commonly fall under two scenarios of use task oriented and non task oriented Task oriented systems perform interactions necessary to achieve a specific goal e g making a reservation On the other hand non task oriented systems perform interactions in which the focus of the interaction is the dialogue itself While the development of speech recognition technology has enabled these systems to interact with people their ability to engage in meaningful dialogue is still limited This Research Topic focuses on social dialogue with robots which has been actively studied in recent years This Research Topic calls for papers on the research and development necessary to allow robots and people to engage in rich social dialogue First we need basic technologies for robots to understand human interaction In addition to large scale language models which have advanced remarkably in recent years we need technology that enables robots to understand the intent and characteristics of the user Furthermore technology that enables robots to generate dialogue by applying these technologies is needed At the same time it is necessary to consider the basic question of why people engage in dialogue It is also important to promote the construction of robot human and human human social relationships as human robot interaction HRI This Research Topic aims to approach these issues and invites papers on these topics

This expanded third edition of a popular textbook provides a completely revised and updated overview of the theories models and therapies that inform direct social work practice The text is grounded in generalist social work principles and values and promotes a problem solving model of social work practice as a framework for the eclectic use of theory as well as for integrating the artistic reflective elements of practice It provides in depth coverage of select psychodynamic cognitive behavioral humanistic critical and postmodern theories The third edition features a new section on Critical Theories where a new chapter on Empowerment Theory is included with a completely revised chapter on Feminist Theory A new chapter on Strengths based Social Work has been added to the section on meta theories for social work practice Other new chapters include Emotion focused Therapy and Collaborative Therapy These revisions are based on suggestions from an extensive survey of professors New to the Third Edition A new section on Critical Theories New chapters on Strengths based Social Work Emotion focused Therapy Empowerment Theory and Collaborative Therapy Updated

research on the debate about the importance of theory technique versus common e g relationship factors and on the critique of the empirically supported treatment movement Key Features Grounds direct practice firmly in the principles and values of generalist social work Promotes a problem solving model of social work as a flexible structure for integrating the eclectic use of theory with the artistic reflective elements of practice Organizes direct practice theories into like groupings and provides an overview of the main characteristics of each grouping Provides in depth coverage of topics in a clear logical and consistent format Includes editors and contributors from the U S and Canada *Personal Constructivism* Larry Milton Leitner,Jill C. Thomas,2009 In a sense the multifaceted contributions in this compendium deconstruct and reconstruct the very concept of personal construct psychology tracing its personal origins in the life and work of George Kelly examining its implications for the construction of a social self and its shadow side alienation and exploring its affordances for a striking range of clinical and theoretical issues Anyone who wonders whether this wellspring of constructivist psychology continues to feed into vital contemporary discourse will be reassured by the strength vitality and novelty of the contributions to these pages and the clarity with which Kelly s voice is echoed and extended in the voices of subsequent generations of scholars Robert A Neimeyer Ph D University of Memphis and author Constructivist Psychotherapy

International Handbook of Personal Construct Psychology

Fay Fransella,2003-07-09 This first International Handbook of Personal Construct Psychology PCP illustrates by its breadth and scope the huge influence the work of George Kelly has had since its inception in 1955 on psychology and related disciplines Including some previously unpublished material by Kelly and Bannister alongside classic texts the handbook is largely devoted to the practical applications of Kelly s work today Areas in which PCP is now being used include expert systems forensic psychology psychotherapy and counselling politics post traumatic stress education developmental and family psychology organizational psychology cross cultural understanding nursing policing artificial intelligence and sport As far as possible each chapter aims to give the reader an idea or method that they can try out for themselves in their own work or personal context Even today some of Kelly s ideas are novel Although all embracing this handbook cannot be comprehensive as new applications and extensions are being developed continually It will prove an invaluable reference to practitioners and scholars from a wide range of disciplines wherever human understanding is relevant

Reflections in Personal Construct Theory Richard J. Butler,2009-04-27 Publisher supplied data The book aims to discuss different aspects of reflexivity by inviting well known practitioners to reflect on how reflexivity has impacted on their work Each chapter will cover an aspect of personal construct theory which the author has found helpful in their work its relation to reflexivity how they have incorporated this in practice and how it has enhanced their understanding of their own self construing Around 20 authors will be invited to contribute Dr Richard Butler is a Consultant Clinical Psychologist with East Leeds Primary Care Trust in the UK He is an Associate Fellow of the British Psychological Society and has published extensively in the areas of both sport psychology and clinical psychology

K. Bridges, 2008 Constructivist psychotherapy remains somewhat unfamiliar to many clinicians despite offering a variety of innovative and practical therapeutic approaches and techniques. In this volume constructivist psychology is presented as it relates to everyday practice. The chapters provide many examples of what constructivist psychotherapy looks like in the real world showing how one can make the transition from constructivist theory to constructivist practice with ease. Constructivist therapy often gets labeled as too theoretical and lacking in clinical specificity. Yet here is a volume with chapters that succinctly and understandably explicate basic theoretical concepts and then demonstrate them with vivid case examples taken from applied experience in the field.

Applying Counseling Theories Aaron B. Rochlen, 2007 *Applying Counseling Theories An Online Case Based Approach* offers the power of the Web and the promise of a true understanding of counseling theories. Unique in product design and intellectual approach it combines a book interactive cases and web based learning into one innovative product. A central goal of this product is to help readers grasp the fundamental principles that govern the application of 16 counseling theories. From Freud to Feminism the authors distill each theory into core principles for applying each theory. Each chapter translates the formal concepts assumptions and techniques of the theory into user friendly guidelines for working with clients. Reading the book one learns the essence of applying each theory and can delve into the original theorist's work comprehensive theory books or eclectic counseling approaches with clarity and understanding. Each chapter is authored by a counselor or therapist who uses that particular theory as a foundation for his or her work with clients. Three compelling video cases on the companion website www.prenhall.com/rochlen capture the intake interviews of three diverse clients ranging in age from 17 to 54 and their unique presenting problems and concerns. From each theoretical perspective users of the website are scaffolded through an analysis of the video cases to help them conceptualize each case using the foundational concepts discussed by the authors in the book. Flexible enough to support any core theories text it is also simple enough for all course delivery modes. Using this multi sensory approach readers learn what therapists do why they do it and how basic theories can be applied in clinical settings.
