*Women in Buddhism* Diana Y. Paul, Frances Wilson, 1985-04-23 In seeking to explore the interrelationships between and mutual influence of varieties of sexual stereotypes and religious views of the Mahayana Buddhist tradition Women in Buddhism succeeds in drawing our attention to matters of philosophical importance Paul examines the image of women which arise in a number of Buddhist texts associated with Mahayana and finds that while ideally the tradition purports to be egalitarian in actual practice it often betrayed a strong misogynist prejudice Sanskrit and Chinese texts are organized by theme and type progressing from those which treat the traditionally orthodox and negative to those which set forth a positive consideration of soteriological paths for women In Women in Buddhism Diana Paul may be forcing our consideration of the problem of female enlightenment Thus the main purport and accomplishment of her scholarship is revolutionary Philosophy East and West     *Women in Buddhism* Diana Y. Paul, Frances Wilson, 1985-01     **Gender in History** Merry E.

Wiesner-Hanks, 2011-06-24 GENDER IN HISTORY Praise for the first edition Wiesner Hanks accomplishes a near impossible feat a review of what is known about the construction of gender and the character of women's lives in all known cultures over the course of human history Theoretically sophisticated and doing justice to the historical and cross cultural record yet assimilable by students Choice Gender in History brilliantly explores the influence of gender constructs in political social economic and cultural affairs The remarkable cultural geographical and chronological range of Wiesner Hanks research is matched only by the sophistication nuance and clarity of her analysis This book offers a rare and valuable global perspective on gender roles in human history Jerry H Bentley University of Hawaii Over the past two decades considerations of gender have revolutionized the study of history Yet most books on the subject remain narrowly focused on a specific time period or particular region of the world Gender in History Global Perspectives Second Edition continues to redress this inequity by providing a concise overview of the construction of gender in many world cultures over a period stretching from the Paleolithic era to modern times Thoroughly updated to reflect current developments in the field the new edition features entirely new sections which address primates slavery colonialism masculinity transgender issues and other relevant topics As in the well received first edition material is presented thematically to reveal the connections between gender and structures such as the family economy law religion sexuality and the state Wiesner Hanks also investigates precisely what it meant to be a man or woman throughout history how these roles were shaped by various institutions and how they in turn were influenced by gender The author presents material within each chapter chronologically to highlight the ways in which gender structures have varied over time The new edition of Gender in History Global Perspectives offers rich insights into all that is currently known about gender roles throughout world history A companion website is available at [www.wiley.com/go/wiesnerhanks](http://www.wiley.com/go/wiesnerhanks)

**Renunciation and Empowerment of Buddhist Nuns in Myanmar-Burma** Hiroko Kawanami, 2013-02-01 Myanmar Burma has one of the largest concentrations of Buddhist nuns and monks in the world today

In Renunciation and Empowerment of Buddhist Nuns in Myanmar Kawanami traces the nun's scholarly lineage in modern Myanmar history and examines their contemporary religious position in Myanmar's social and political contexts. Although their religious status may appear ambiguous from a textual viewpoint it is argued that their large presence is a clear indication as to the important functions Buddhist nuns perform in the monastic community Sagaing Hill where the main research was conducted occupies an important educational centre for Myanmar nuns in consolidating their scholarly lineage and spreading the network of dhamma teachers. The book examines transactions that take place in their everyday lives and reveals the essence of their religious lives that make Buddhist nuns an essential bridge between sangha and society. Book jacket [Experiencing Globalization](#) Derrick M. Nault, Bei Dawei, Evangelos Voulgarakis, Rab Paterson, Cesar Andres-Miguel Suva, 2013-02-01. Today in an age of globalization religion represents a potent force in the lives of billions of people worldwide. Yet when social theorists examine the impact of globalization on contemporary religious movements they tend to focus on issues such as Islamic fundamentalism and threats to US or global security. This collection of essays takes a different approach analyzing with special reference to Asia religion through lived experience. The key issues covered in the volume include how religious impulses contribute to globalization how religious groups and organizations repackage traditional beliefs for transcultural appeal how religious adherents cope with external threats to identity how new technologies are reshaping the nature of religious beliefs and images and how local and global religious influences blend and or clash. Far from religion being a subject of peripheral concern to globalization the contributors demonstrate that from the most basic level of our interactions with the natural environment to the socio political behavior of the great religions and even to the profusion of folk and pop culture phenomena the influence of religion upon globalization and vice versa is apparent at all levels.
