Women In Purple Rulers Of Medieval Byzantium Women In History:

Women in Purple Judith Herrin, 2021-09-14 In the eighth and ninth centuries three Byzantine empresses Irene Euphrosyne and Theodora changed history Their combined efforts restored the veneration of icons saving Byzantium from a purely symbolic and decorative art and ensuring its influence for centuries to come In this exhilarating and highly entertaining account one of the foremost historians of the medieval period tells the story of how these fascinating women exercised imperial sovereignty with consummate skill and sometimes ruthless tactics Though they gained access to the all pervasive authority of the Byzantine ruling dynasty through marriage all three continued to wear the imperial purple and wield tremendous power as widows From Constantinople their own Queen City the empresses undermined competitors and governed like men They conducted diplomacy across the known world negotiating with the likes of Charlemagne Roman popes and the great Arab caliph Harun al Rashid Vehemently rejecting the ban on holy images instituted by their male relatives Irene and Theodora used craft and power to reverse the official iconoclasm and restore icons to their place of adoration in the Eastern Church In so doing they profoundly altered the course of history The art and not only the art of Byzantium of Islam and of the West would have been very different without them As Judith Herrin traces the surviving evidence she evokes the complex and deeply religious world of Constantinople in the aftermath of Arab conquest She brings to life its monuments and palaces its court ceremonies and rituals the role of eunuchs the third sex bride shows and the influence of warring monks and patriarchs Based on new research and written for a general audience Women in Purple reshapes our understanding of an empire that lasted a thousand years and splashes fresh light on the relationship of women to power

through the complex ceremonies of the imperial court She describes the transcendent beauty and power of the church of Hagia Sophia as well as chariot races monastic spirituality diplomacy and literature She reveals the fascinating worlds of military usurpers and ascetics eunuchs and courtesans and artisans who fashioned the silks icons ivories and mosaics so readily associated with Byzantine art An innovative history written by one of our foremost scholars Byzantium reveals this great civilization s rise to military and cultural supremacy its spectacular destruction by the Fourth Crusade and its revival and final conquest in 1453 **The Orthodox Church in the Byzantine Empire** J. M. Hussey,2010-03-25 This book describes the role of the medieval Orthodox Church in the Byzantine Empire c 600 c 1453 As an integral part of its policy it was as in western Christianity closely linked with many aspects of everyday life both official and otherwise It was a formative period for Orthodoxy It had to face doctrinal problems and heresies at the same time it experienced the continuity and deepening of its liturgical life While holding fast to the traditions of the fathers and the councils it saw certain developments in doctrine and liturgy as also in administration Part I discusses the landmarks in ecclesiastical affairs within the Empire as well as the creative influence exercised on the Slavs and the increasing contacts with westerners particularly after 1204 Part II gives a brief account of the structure of the medieval Orthodox Church its officials and organization and the spirituality of laity monks and clergy

Women at Work from Ancient Egypt Through the Middle Ages Lora Ann Sigler,2025-10-17 Even voracious readers are often unaware that women have worked outside the home from the earliest recorded history A significant number of them have made names for themselves by being the first of either sex to do what they did For example the first musical composer we know of Enheduanna of Sumeria daughter of Sargon II Or even more astonishing the first practitioners of Caesarian sections for a difficult birth generally fatal for the mother but producing a live infant Thoroughly illustrated with high quality photographic images this work fills a gap in popular history detailing women at work from the dawn of civilization through to the Middle Ages There are four appendices regarding objects of interest related indirectly but importantly to the text as well as copious endnotes included with each chapter and a glossary of terms which may be unfamiliar to readers For those who wish to pursue related topics there is also a complete bibliography A number of the women included in this work have been forgotten by history even their real names unknown All however have contributed generously to their respective societies and cultures

western and central Eurasia the Mediterranean South Asia Africa East Asia Europe the Americas and Oceania as well as offering regional studies highlighting specific topics from trade along the Silk Roads and across the Sahara to Chaco culture in the US southwest to Confucianism and the state in East Asia *Empresses-in-Waiting* Christian Rollinger, Nadine Viermann, 2024-05-20

Empresses in Waiting comprises case studies of late antique empresses female members of imperial dynasties and female members of the highest nobility of the late Roman empire ranging from the fourth to the seventh centuries AD. Situated in the context of the broader developments of scholarship on late antique and byzantine empresses this volume explores the political agency religious authority and influence of imperial and near imperial women within the Late Roman imperial court which is understood as a complex spatial social and cultural system the centre of patronage networks and an arena for elite competition. The studies explore female performance and representation in literary and visual media as well as in court ceremonial and discuss the opportunities and constraints of female power within a male dominated court environment and the broader realms of imperial activity. By focusing on imperial women the volume not only addresses questions of gendered rhetoric and agency but throws into relief general dynamics in the exercise of imperial power during a period in which the classical Mediterranean world at large as well as the Roman monarchy underwent crucial transformations. An Open Access version of the Lewis Dagnall's chapter 'The Empress Sophia and East Roman Foreign Policy' will be available on publication on the Liverpool University Press website.

The Oxford Encyclopedia of Women in World History Bonnie G. Smith, 2008-01-23 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work. Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected. The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes. The Encyclopedia contains over 1 250 signed articles arranged in an A-Z format for ease of use. The entries cover six main areas biographies geography and history comparative culture and society including adoption, abortion, performing arts, organizations and movements such as the Egyptian Uprising and the Paris Commune, women's and gender studies and topics in world history that include slave trade, globalization and disease. With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars, college and high school students and general readers alike.

Greek East and Latin West Andrew

Louth,2007 This volume gives an account of the Church in the period from the end of the Sixth Ecumenical Synod in 681 to the Battle of Manzikert in 1071 Although Greek East and Latin West are becoming distinct entities during this expanse of time the author treats them in parallel observing the points at which their destinies coincide or conflict The author notes developments within the whole of the Church rather than striving simply or even primarily to explain the eventual schism between Eastern and Western Christendom Covering events both unique to each part the Iconoclastic controversy in the East and the rise of the Carolingian Empire in the West and common to each part monastic reform renaissance and mission the author skillfully portrays two Christian civilizations that share much in common yet become increasingly incomprehensible to one another Despite curious synchronisms between East and West the author demonstrates how two paths diverged from a once common route and how eventually Byzantine Orthodoxy defined the Greek East over and against the Latin West in theological religious cultural and political terms Provided by publisher

Female founders in Byzantium and beyond Lioba Theis,Margaret Mullett,Michael Grünbart,2014 This volume presents the results of a scholarly meeting which focused on the patronage of women in the Byzantine Empire In their scope the articles address broadly not only the founding or re founding of churches and monasteries but also their rich decoration as well as numerous smaller donations In spite of increased attention to gender research in recent years a comparative treatment of the legal and economic potentiel that women in Byzantium could exercise in order to exert independent influence has been lacking thus a gender specific viewpoint for the volume was intentionally chosen
