**Remembering Women's Activism** Sharon Crozier-De Rosa, Vera Mackie, 2018-09-25

*Remembering Women's Activism* examines the intersections between gender politics and acts of remembrance by tracing the cultural memories of women who are known for their actions. Memories are constantly being reinterpreted and are profoundly shaped by gender. This book explores the gendered dimensions of history and memory through nation based and transnational case studies from the Asia Pacific region and Anglophone world. Chapters consider how different forms of women's activism have been remembered: the efforts of suffragists in Britain, the USA and Australia to document their own histories and preserve their memory; Constance Markievicz and Qiu Jin, two early twentieth century political activists in Ireland and China respectively; the struggles of women workers and the movement for redress of those who have suffered militarized sexual abuse. The book concludes by reflecting on the mobilization of memories of activism in the present. Transnational in scope and with reference to both state centred and organic acts of remembering, including memorial practices, physical sites of memory, popular culture and social media. *Remembering Women's Activism* is an ideal volume for all students of gender and history, the history of feminism and the relationship between memory and history.

*Men in the American Women's Rights Movement, 1830-1890* Hélène Quanquin, 2020-11-29

This book studies male activists in American feminism from the 1830s to the late 19th century using archival work on personal papers as well as public sources to demonstrate their diverse and often contradictory advocacy of women's rights as important but also cumbersome allies. Focusing mainly on nine men: William Lloyd Garrison, Wendell Phillips, James Mott, Frederick Douglass, Henry B. Blackwell, Stephen S. Foster, Henry Ward Beecher, Robert Purvis and Thomas Wentworth Higginson, the book demonstrates how their interactions influenced debates within and outside the movement, marriages and friendships as well as the evolution of self definitions of masculinity throughout the 19th century. Re-evaluating the historical evolution of feminisms as movements for and by women as well as the meanings of identity politics before and after the Civil War, this is a crucial text for the history of both American feminisms and American politics and society. This is an important scholarly intervention that would be of interest to scholars in the fields of gender history, women's history, gender studies and modern American history.
