English Grammar Talmy Givón,1993 The approach to language and grammar that motivates this book is unabashedly functional grammar is not just a system of empty rules it is a means to an end an instrument for constructing concise coherent communication In grammar as in music good expression rides on good form Figuratively and literally grammar like musical form must make sense But for the instrument to serve its purpose it must first exist the rules must be real they can be explicitly described and taught This book is intended for both students and teachers at college level for both native and nonnative speakers With the guidance of a teacher this book will serve as a thorough introduction to the grammar of English Volume II continues with syntactic and communicative complexity embedded clauses verb complements relative

clauses detransitive voice passive anti passive impersonal and middle voice reflexive and reciprocal constructions focus and topic constructions nondeclarative speech acts It closes with interclausal connectivity conjoined and subordinate clauses the grammar of discourse coherence clause chains and thematic paragraphs The Commercialization of Intimate Life Arlie Russell Hochschild, 2003-04-24 Looking at a series of intimate moments that affect people the author of three New York Times Notable Books offers fresh essays on how everyday lives are shaped by modern capitalism 2 charts **The Life of I** Anne Manne, 2015-08-03 Far from being the work of a madman Anders Breivik's murderous rampage in Norway was the action of an extreme narcissist As the dead lay around him he held up a finger asking for a Band Aid Written with the pace of a psychological thriller The Life of I is a compelling account of the rise of narcissism in individuals and society Manne examines the Lance Armstrong doping scandal and the alarming rise of sexual assaults in sport and the military as well as the vengeful killings of Elliot Rodger in California She looks at narcissism in the pursuit of fame and our obsession with making it She goes beyond the usual suspects of social media and celebrity culture to the deeper root of the issue how a new narcissistic character type is being fuelled by a cult of the self and the pursuit of wealth in a hypercompetitive consumer society The Life of I also offers insights from the latest work in psychology looking at how narcissism develops But Manne also shows that there is an alternative how to transcend narcissism to be fully alive to the presence of others how to create a world where love and care are no longer turned inward Letters from Women who Love Too Much Robin Norwood, 1988
