The Celebrated Elizabeth Smith Lucia McMahon,2022-10-21 Elizabeth Smith a learned British woman born in the momentous year 1776 gained transnational fame posthumously for her extensive intellectual accomplishments which encompassed astronomy botany history poetry and language studies As she navigated her place in the world Smith made a self conscious decision to keep her many talents hidden from disapproving critics Therefore her rise to fame began only in 1808 when her posthumous memoir appeared In this elegantly written

biography Lucia McMahon reconstructs the places and social constellations that enabled Smith's learning and adventures in England, Wales and Ireland and traces her transatlantic fame and literary afterlife across Britain and the United States. Through re-telling Elizabeth Smith's fascinating life story and retracing her posthumous transatlantic fame, McMahon reveals a larger narrative about women's efforts to enact learned and fulfilling lives and the cultural reactions such aspirations inspired in the early nineteenth century. Although Smith was cast as exceptional by her contemporaries and modern scholars alike, McMahon argues that her scholarly achievements, travel explorations and posthumous fame were all emblematic of the age in which she lived. Offering insights into Romanticism, picturesque tourism, celebrity culture and women's literary productions, McMahon asks the provocative question: How many seemingly exceptional women must we uncover in the historical record before we are no longer surprised?
