*Women's Movements in Asia* Mina Roces, Louise Edwards, 2010-06-10 *Women's Movements in Asia* is a comprehensive study of women's activism across Asia. With chapters written by leading international experts it provides a full overview of the history of feminism as well as the current context of the women's movement in 12 countries: the Philippines, China, Indonesia, Japan, Burma, Singapore, Vietnam, Malaysia, Thailand, Cambodia, Hong Kong, Korea, India, and Pakistan. For each of these countries, the manner in which feminism changes according to cultural, political, economic, and religious factors is explored. The contributors investigate how national feminisms are influenced by transnational factors such as the women's movements in other countries, colonialism, and international agencies. Each chapter also considers what Asian feminists have contributed to global theoretical debates on the woman question, the key successes and failures of the movements, and what needs to be addressed in the future. This breadth of coverage, together with suggestions for further reading and watching, and an integrated cross-national timeline, makes *Women's Movements in Asia* ideal for use on courses looking at women and feminism in Asia. It will appeal both to students and specialists in the fields of gender, women's, and Asian studies.

*Companion to Feminist Studies* Nancy A. Naples, 2020-11-24 A comprehensive overview of feminist scholarship edited by an internationally recognized and leading figure in the field, *Companion to Feminist Studies* provides a broad overview of the rich history and the multitude of approaches, theories, concepts, and debates central to this dynamic interdisciplinary field. Comprehensive yet accessible, this edited volume offers expert insights from contributors of diverse academic, national, and activist backgrounds, discussing contemporary research and themes while offering international, postcolonial, and intersectional perspectives on social, political, cultural, and economic institutions, social media, social justice movements, everyday discourse, and more. Organized around three different dimensions of Feminist Studies, the *Companion* begins by exploring ten theoretical frameworks, including feminist epistemologies, examining Marxist and Socialist Feminism, the activism of radical feminists, the contributions of Black feminist thought, and interrelated approaches to the fluidity of gender and sexuality. The second section focuses on methodologies and analytical frameworks developed by feminist scholars, including empiricists, economists, ethnographers, cultural analysts, and historiographers. The volume concludes with a detailed discussion of the many ways in which pedagogy, political ecology, social justice, globalization, and other areas within Feminist Studies are shaped by feminism in practice. A major contribution to scholarship on both the theoretical foundations and contemporary debates in the field, this volume provides an international and interdisciplinary range of essays of high relevance to scholars, students, and practitioners alike. Examines various historical and modern approaches to the analysis of gender and sexual differences. Addresses timely issues such as the difference between radical and cultural feminism, the lack of women working as scientists in academia and other research positions, and how activism continues to reformulate feminist approaches. Draws insight from the positionality of postcolonial, comparative, and transnational feminisms. Explores how gender

class and race intersect to shape women's experiences and inform their perspectives Companion to Feminist Studies is an essential resource for students and faculty in Women's Gender and Sexuality Studies Feminist Studies programs and related disciplines including anthropology psychology history political science and sociology and for researchers scholars practitioners policymakers activists and advocates working on issues related to gender sexuality and social justice
