Womens Words The Feminist Practice Of Oral History:

Women's Words Sherna Berger Gluck, Daphne Patai, 1991 *Women's Words* is the first collection of writings devoted exclusively to exploring the theoretical methodological and practical problems that arise when women utilize oral history as a tool of feminist scholarship. In thirteen multidisciplinary essays the book takes stock of the implicit presuppositions, contradictions and prospects of oral history at the hands of feminist scholars. Publisher's description *Beyond Women's Words* Katrina Srigley, Stacey Zembrzycki, Franca Iacovetta, 2018-05-01 *Beyond Women's Words* unites feminist scholars, artists and community activists working with the stories of women and other historically marginalized subjects to address the contributions and challenges of doing feminist oral history. Feminists who work with oral history methods want to tell stories that matter. They know too that the telling of those stories, the processes by which they are generated and recorded, and the different contexts in which they are shared and interpreted also matters a lot. Using Sherna Berger Gluck and Daphne Patai's classic text *Women's Words* as a platform to reflect on how feminisms broadly defined have influenced and continue to influence the wider field of oral history, this remarkable collection brings together an international, multi-generational and multidisciplinary line-up of authors whose work highlights the great variety in understandings of and approaches to feminist oral histories. Through five thematic sections, the volume considers Indigenous modes of storytelling, feminism in diverse locales around the globe, different theoretical approaches to oral history as performance, digital oral history, and oral history as community engagement. *Beyond Women's Words* is ideal for students of oral history, anthropology, public history, women's and gender history, and Women's and Gender Studies, as well as activists, artists, and community engaged practitioners. The Practice of Qualitative Research Sharlene Nagy Hesse-Biber, Patricia Leavy, 2006 Covering all the key mainstream qualitative methods, this book offers candid wisdom, tips from leading researchers that will help students with the process of completing a successful research project. Narratives of Mexican American Women Alma M. García, 2004 Alma García offers a bold new interpretation of identity formation for second-generation immigrants in America. The narratives of Mexican American women in higher education reveal their journeys of self-discovery, a process filled with tensions, contradictions, and ambiguities. García captures the spirit of their struggles to understand their sense of self, culture, and society. Her qualitative analyses reveal the emergent processes by which these women negotiate ethnic, gender, and class identities with their Mexican immigrant parents and with their university communities. García integrates a wide range of theoretical frameworks to study educational life experiences. Her findings offer significant insight into the processes of cultural continuity and change and the potential for upward mobility for immigrants. García proposes new university policies and curriculum changes to improve the situation for second-generation students. She calls for the reform of higher education in the United States to open its doors more widely to Mexican American students and other underrepresented groups to make the educational system truly reflective of the ethnic diversity that has always formed the core of American society. García's new book is a

valuable contribution to Mexican American studies ethnic studies women s studies comparative education and sociology
