**Means and Ends** Zoe Baker, 2023-07-25 An expansive and accessible account of anarchism as a theory of practice. A new in-depth look at the revolutionary strategy of anarchism in Europe and the United States between 1868 and 1939. Zoe Baker, creator of a popular YouTube series on radical history and political theory, brings her trademark clarity and accessibility to this debut book. Cutting through misperceptions and historical inaccuracies, she shows how the reasons anarchists gave for supporting or opposing particular strategies were grounded in a specific theoretical framework: a theory of practice. The consistent and coherent heart of anarchism, Baker shows, is the understanding that as people engage in activity, political or otherwise, they simultaneously change the world and themselves. Put another way, the means that revolutionaries propose to achieve social change have to involve forms of activity through which people can become individuals capable of overthrowing capitalism and the state as well as building a better society. Behind this simple premise that anarchist ends can only be achieved through anarchist means lies a wealth of fascinating historical and theoretical detail that Baker presents clearly and engagingly. [Ecology of Everyday Life](#) Chaia Heller,1999 Ecology of Everyday Life examines the ecological impulse as a desire for nature a desire that emerges as people within industrial capitalist contexts respond to the personal and aesthetic rather than the physical and political implications of ecological breakdown While exploring the historical causes of this romantic desire for nature Heller also offers a way to reconstruct ideas of both nature and desire drawing from feminist anarchist and social ecological theory She provides an activist response to ecological questions arguing that the ecology movement too often links ecological problems to personal psychological and spiritual concerns rather than to concerns of social justice Yet rather than dismiss such personal and qualitative concerns Heller links the desire for a more meaningful and integral quality of life to the activist impulse itself Questioning assumptions about nature desire and the ecological agenda the author encourages readers to consider new ways of desiring nature that entail changes not only in personal life style and outlook but changes in social institutions as well Chaia Heller holds a MA in psychology and has worked for many years as a clinical social worker counselling and advocating for women struggling with issues of domestic abuse and poverty In addition she has had a long career as a teacher and international lecturer in the fields of social ecology and ecofeminism and is currently on the faculty at the Institute for Social Ecology She also teaches at the University of Massachusetts where she is pursuing a PhD
