the theory's most significant ideas and clarifies content specific vocabulary. Each theorist chapter is written by a scholar specializing in that particular theorist's work, often having worked closely with the theorists to provide the most accurate and complete information possible. Beginning chapters provide a strong foundation on the history and philosophy of science, logical reasoning and the theory development process. Diagrams for theories help you visualize and better understand inherently abstract concepts. Pictures of theorists as well as a listing of contact information for each individual enables you to contact the source of information directly. Theorist chapters have been reviewed and edited by the theorist validating the accounts set forth in the text for currency and accuracy. An extensive bibliography at the conclusion of each theorist chapter outlines numerous primary and secondary sources of information ideal for both undergraduate and graduate research projects. NEW Quotes from the theorist make each complex theory more memorable. NEW Chapter on Afaf Meleis profiles a theorist who has shaped theoretical development in nursing and explores her transition theory. NEW Need to Know Information is highlighted to streamline long complex passages and help you review key concepts. NEW Points for Further Study at the end of each chapter direct you to assets available for additional information.
