## **Spotify Today:**

, *Spotification of Popular Culture in the Field of Popular Communication* Patrick Burkart,2020-09-10 This edited collection considers various meanings of the Spotification of music and other media. Specifically it replies to the editor's call to address the changes in media cultures and industries accompanying the transition to streaming media and media services. Streaming media services have become part of daily life all over the world with Spotify in particular inheriting and reconfiguring characteristics of older ways of publishing, distributing and consuming media. The contributors look to the broader community of music, media and cultural researchers to spell out some of the implications of the Spotification of music and popular culture. These include changes in personal media consumption and production, educational processes and the work of media industries. Interdisciplinary scholarship on commercial digital distribution is needed more than ever to illuminate the qualitative changes to production, distribution and consumption accompanying streaming music and television. This book represents the latest research and theory on the conversion of mass markets for recorded music to streaming services.

**Platformed! How Streaming, Algorithms and Artificial Intelligence are Shaping Music Cultures** Tiziano Bonini, Paolo Magaidda, 2023-12-27 Grounded in more than a decade of field research this book uses empirical examples, quantitative data and qualitative interviews with young music consumers as well as music industry professionals to understand how the platforms behind music production, distribution and listening work in our digital society. Bringing together the perspectives from science and technology studies, media studies and the political economy of digital platforms, the book outlines the process of mutual construction between music, digital platforms and the cultural value of music in today's society and also reflects on the complicated relationship between the power of platforms and the agency of listeners.

Digital Marketing Dave Chaffey, Fiona Ellis-Chadwick, 2019-02-05 Now in its seventh edition, Digital Marketing provides comprehensive practical guidance on how companies can get the most out of digital media and technology to meet their marketing goals.

*Networked Music Cultures* Raphaël Nowak, Andrew Whelan, 2016-09-16 This collection presents a range of essays on contemporary music distribution and consumption patterns and practices. The contributors to the collection use a variety of theoretical and methodological approaches discussing the consequences and effects of the digital distribution of music as it is manifested in specific cultural contexts. The widespread circulation of music in digital form has far-reaching consequences not least for how we understand the practices of sourcing and consuming music, the political economy of the music industries and the relationships between format and aesthetics. Through close empirical engagement with a variety of contexts and analytical frames the contributors to this collection demonstrate that the changes associated with networked music are always situationally specific sometimes contentious and often unexpected in their implications. With chapters covering topics such as the business models of streaming audio, policy and professional discourses around the changing digital music market the creative affordances of format and circulation and local practices of accessing and engaging with

*Revolutionizing EFL Learning. Integrating Podcasts to Enhance Communicative, Intercultural, and Media Literacy Skills* Jessica Büscher,2024-07-22 Master s Thesis from the year 2022 in the subject Didactics for the subject English Pedagogy Literature Studies grade 1 0 University of Paderborn language English abstract This paper explores how podcasts can revolutionize learning in the EFL English as a foreign language classroom Not only are podcasts easily accessible and transcend knowledge barriers but they also foster close knit communities and offer a variety of genres and formats Although increasingly popular with young adults their potential often remains untapped in schools This study aims to show how teachers can use podcasts effectively in the classroom to promote communicative intercultural and media literacy skills With concrete application examples and creative teaching concepts we want to give teachers the tools to integrate podcasts profitably into EFL lessons and thus make learning more exciting and interactive

**The Deal ,2010 Show me your playlist and I tell you who you are** Kathrin Rochow,2012-11-28 Bachelor Thesis from the year 2010 in the subject Psychology Social Psychology grade 1 0 Uppsala University language English abstract In the age of social networking and music streaming playlists are a common tool for organizing sharing or exchanging music in the digital realm Most research however emphasizes mainly political legal and ethical constraints of music sharing practices yet neglects their social impact Thus this paper investigates the social psychological foundation of the playlist and analyses its functionality in establishing social relations and communication Following the theories of Cooley Mead Simmel and Solomon I conducted and analysed interviews with young Swedish men and women in which they talked about their experiences and attitudes towards playlists

Moreover all participants compiled their own personal playlist based on certain personality traits which were aimed to be recognized by the others during the focus group discussion The analysis of the data yields the following conclusions The playlist is a social object facilitating new forms of communication The social nature of the playlist is based on the transformation from objective into subjective culture By internalizing new technologies such as the playlist objects gain social value thus mere musical content becomes a social form It is through sharing and exchanging musical compilations that the playlist as a social form serves as a vehicle or medium facilitating new forms of sociation and communication The communicative function of the playlist is due to its construction through emotions as uniquely subjective judgements based on the I as an emotional self feeling Thus musical compilations take part in the self construction process and can serve as a tool for the symbolic expression of the self Moreover the analysis points out that there are differences in how well certain parts of the self can be communicated by a playlist Emotional expressions of the self are translated into particular universal music patterns most successfully Furthermore the analysis shows that some people like to browse through the playlists of others and judge them thereupon which results in some type of musical voyeurism termed playlistism In conclusion I argue that the musical playlist is both socially implicated and socially implicating

*How do Fintech Startups and a Changing Consumer Behavior Reshape the Financial Services Industry?* Viktor Kanzler, 2015-05-18 Bachelor Thesis from the year 2015 in the subject Business economics Business Management Corporate Governance grade 1 3 Frankfurt School of Finance Management language English abstract The purpose of this study is to illustrate how Fintech startups and other non financial institutions reshape the finance industry as they take advantage of recent technology trends and lifestyle shifts affecting customers expectations The thesis aims to show how the competitive landscape changes and to what extent digital attackers grab parts of the value chain The study also maps out the Fintech landscape highlights important growth trends and gives an overview of the services and products with which Fintech startups are currently edging into the market Moreover the study points out the specific drivers and barriers relevant to Fintech companies A further objective was to find out whether Fintech startups pose a serious threat to traditional providers and if so which generic approaches exist to deal with these attackers Apart from that the aim was to identify how peers address digitization as well as what strengths traditional banks can rely on Last but not least the study demonstrates what banks and other institutions can learn from Fintech startups and how the future of finance could develop and look like in 2020

*Business Statistics* Sanjiv Jaggia, 2024 *Main Challenges of Established Companies in Business Model Innovation* Michael Lang, 2020-03-16 Research Paper postgraduate from the year 2020 in the subject Business economics Business Management Corporate Governance grade 1 0 Mendel University Economics language English abstract The goal of this paper is to outline the main challenges of established companies in the field of business model innovation By conducting an empirical analysis through 30 expert interviews insights are generated in the field of dealing with disruptive innovation dominant mindset and business model innovation At first the focus of the

research is to identify the main levers for enabling disruptive innovation through the eyes of established companies Secondly a special focus of the interviews is to identify how an established organizational mindset affects the organizations behavior towards disruption Finally the main difficulties of established organizations regarding business model innovation is outlined According to the research goal the main insight regarding disruptive innovation is that 25 percent of the experts point out that they are lacking a supportive environment for dealing with disruptive innovation in the correct way In the area of dominant logic over 50 percent are concerned how their large traditional and process heavy firms can overcome their dominant mindset in order to stay competitive Finally 60 percent highlighted in the area of business model innovation that business innovation projects with experimentation without a reporting structure is key The analysis of the expert interviews reveal that established companies are aware of disruptive trends however are not sure how to design the right environment for building the right capabilities Secondly it also highlights that the companies are aware of their dominant mindset as a key success factor for their business model innovation initiatives but do not know how to create cultural shift to overcome it Finally the research clearly demonstrates that the main challenges of established companies in business model innovation lays in the interlinkage between disruptive innovation dominant mindset and business model innovation itself which needs more attention by research in the future

**A New Approach for Developing Business Model Innovation** Michael Lang, Annika Koerdt, 2019-12-30 Research Paper postgraduate from the year 2019 in the subject Business economics Company formation Business Plans grade 1.0 Mendel University Business and Economics language English abstract Business model innovation has received increasing interest within science and managerial practice over the last years Accordingly scientists have developed various approaches on business model innovation However it has been recognized that established companies face particular challenges successfully innovating their business model Current academic research considers the company's established dominant logic to be the main barrier hindering the innovation process In contrast to that none of current theories on business model innovation covers the overcoming of the dominant logic in their approaches The research gap leads to the question how does a new approach for business model innovation looks like which support today's companies in their current and future challenges To answer this question Chapter 1 highlights the need for action Based on that Chapter 2 deals with the theory of business model innovation and dominant logic Chapter 4 highlights the research gap reflecting on the role of dominant logic within business model innovation Chapter 5 aims at developing the according strategy which acknowledges and effectively addresses the innovation barrier of the dominant logic Finally the last Chapter summarizes the findings how the new academic approaches on business model innovation is characterized and discuss the validation of the new theory
