The Perennial Wisdom:

The Perennial Philosophy Aldous Huxley, 2009-07-28 An inspired gathering of religious writings that reveals the divine reality common to all faiths collected by Aldous Huxley The Perennial Philosophy Aldous Huxley writes may be found among the traditional lore of peoples in every region of the world and in its fully developed forms it has a place in every one of the higher religions With great wit and stunning intellect drawing on a diverse array of faiths including Zen Buddhism Hinduism Taoism Christian mysticism and Islam Huxley examines the spiritual beliefs of various religious traditions and explains how they are united by a common human yearning to experience the divine The Perennial Philosophy includes selections from Meister Eckhart Rumi and Lao Tzu as well as the Bhagavad Gita Tibetan Book of the Dead Diamond Sutra and Upanishads among many others

Traditionalism Kenneth Oldmeadow, Harry Oldmeadow, 2000 This book explains why no one engaged in religious and cultural studies can afford to disregard the urgent message of the traditionalists who have reminded a forgetful world in a manner which can be ignored but not refuted of those principles which everywhere and always remain true It also demonstrates why any reassessment of contemporary values now increasingly called into question must take into account the profound traditionalist critique of the modern Western worldview

BOOK JACKET **The Perennial Wisdom of Javidan Khirad** Javidan Khirad of Miskawayh, 2023-06-10 **Perennial Wisdom for the Spiritually Independent**, 2013-09-01 The spiritual teachings of many faith traditions can help you step beyond the limits of any one tradition to the reality that can't be named The fastest growing spiritual movement in the United States today is that of the religiously unaffiliated These spiritual seekers make up 20 percent of the adult American population they are the spiritual equivalent of political independents Refusing to limit themselves to one religion or another these seekers without borders are open to wisdom wherever it can be found This is a bible for this vast and growing social movement It weaves sacred texts and teachings from the world's major religions Christianity Judaism Islam Hinduism

Buddhism and more into a coherent exploration of the five core questions at the heart of every religion's search: Who am I? Where did I come from? Where am I going? How shall I live? Why? It couples these sacred teachings with modern commentary designed to help readers use these texts in their daily lives. It also provides the basics of spiritual mentor Eknath Easwaran's Passage Meditation to help you internalize the texts that articulate your deepest insights and values. *The Underlying Religion* Martin Lings, 2007-07-18 This is an anthology of 25 essays by the leading exponents of the perennialist school of comparative religious thought. It aims to be the most accessible introduction yet to the perspective of the Perennial Philosophy. *Philosophy of Science in the Light of the Perennial Wisdom* Mahmoud Bina, Alireza K. Ziarani, 2020-07-11 Against the backdrop of the pervasive scientism of our time, this book is a daring attempt to offer an intellectual critique of the foundations of modern science by rigorously examining the limitations of rational thought and empirical investigation. Unique of its kind, it situates science in the context of the perennial wisdom of the world's religions, which for millennia have provided keys to true knowledge. **The Return of the Perennial Philosophy** John Holman, 2012-01-01 Intelligent and perceptive, this examination of the universal truths inherent in all cultures and religions is a powerful scholarly analysis of Western esotericism's deepest teachings. John Holman contends that the perennial philosophy is not only at the heart of all world religions but also of all major schools of thought and writings by the great thinkers and philosophers, no matter how diverse the presentation of their perceived truths. In an accessible way, Holman sheds light on a number of esoteric topics, including The Absolute and the One, the Great Chain of Being, the Philosopher's Stone, the Seven Spirits, the evolution of consciousness, and the Eternal Now, paying particular attention to the subject of time. This thought-provoking book helps us to develop a better understanding of the nature of reality and our potential for transcendence and revolutionizes the debate on the perennial philosophy. **Echoes of Perennial Wisdom** Frithjof Schuon, 1992 A collection of short, jewel-like excerpts from Schuon's major works that evokes the essence of spiritual truths. *The Perennial Wisdom* Courtney Dorian Schlosser, 2014-03-12 The search for knowledge and wisdom has always been a many-sided pursuit. Throughout human history, mystics and seekers have shared powerful and intuitive views about the Divine, while skeptics and nonbelievers have been quick to explain these beliefs away as self-deception. But the Truth is more complex and evolving than either of these approaches; hence the need for philosophers who work to separate and connect the divine and the natural, the subjective and the objective, and the relative and the absolute. Through an experimental and open-minded approach to the world of spirituality, the philosophy of perennialism recognizes the foundation that all of the world's religious traditions have always had in common, regardless of culture, location, or generation. It also inspires meaningful reflections and revelations regarding the nature of the divine, the meaning of eternity, and the purpose of life itself. This academic look at perennialism provides a thorough evaluation of the spiritual philosophy from three directions: mystical, skeptical, and pragmatic. Through these varied points of view, *The Perennial Wisdom* provokes meditation and thought regarding some of life's most challenging mysteries, as

seen through the eyes of students of the perennial philosophy Words of Wisdom John W. Carlson, 2012-01-16 Like their predecessors throughout the late nineteenth and twentieth centuries popes John Paul II and Benedict XVI have emphasized the importance of philosophy in the Catholic intellectual tradition In his encyclical *Fides et ratio* 1998 John Paul II called on philosophers to have the courage to recover in the flow of an enduringly valid philosophical tradition the range of authentic wisdom and truth Where the late pope spoke of an enduringly valid tradition Jacques Maritain and other Thomists often have referred to the perennial tradition or to perennial philosophy *Words of Wisdom* responds to John Paul's call for the development of this tradition with a much needed dictionary of terms As a resource for students in colleges universities and seminaries as well as for teachers of the perennial tradition and interested general readers *Words of Wisdom* occupies a unique place It offers precise yet clear and understandable accounts of well over a thousand key philosophical terms richly cross referenced It also explains significant terms from other philosophical movements with which Thomism and the Catholic intellectual tradition more generally has engaged either through debate or through judicious and creative incorporation Moreover it identifies a number of theological and doctrinal expressions to which perennial philosophy has contributed Finally it provides a comprehensive bibliography of works by Aquinas in English expositions and discussions of perennial themes and representative examples from the writings of all philosophers and theologians mentioned in dictionary entries

Echoes of Perennial Wisdom Frithjof Schuon, 2012-02-16 This revised collection of brief and inspiring passages on the spiritual life was selected from Schuon's unpublished letters and papers as well as from his books They discuss our relationship with God the importance of prayer the meaning of virtue the significance of beauty in our lives as well as other spiritual themes This edition has been re translated and expanded to include 19 additional pages of moving excerpts
