The Desert John C. Van Dyke,John Charles Van Dyke,1980 In the early summer of 1898 John C Van Dyke an asthmatic forty two year old art historian and critic rode an Indian pony out of the Hemet Valley and headed southeast into the Colorado desert With his dog his guns and few supplies this sickly aesthete wandered mostly alone for nearly three years across the deserts of California Arizona and Mexico He crossed the Salton Sea Basin forded the Colorado below Yuma on a raft he built himself followed the railroad line to Tucson then turned west again toward Sonora His exact route is not known he did not always know where he was himself He sought both health and beauty in the dry country and wrote that the desert never had a sacred poet it has in me only a lover This extraordinary book composed at odd intervals when I lay against a rock or propped up in the sand is a masterpiece of personal philosophy containing precise scientific analyses of diverse phenomena from erosion to sky colors and prescient ruminations on the nature of civilization The desert should never be reclaimed Van Dyke wrote yet he lived long enough to see the reclamation projects in what became the Imperial Valley He did not witness the virtual destruction of the Colorado Desert still ongoing As poet Richard Shelton wonders in his introduction Where are the herds of antelope Van Dyke spoke of and the gray wolves and the pure air

Mojave Diane Siebert,1992-06-19 Evokes the land and animals of the Mohave Desert in poetic text and illustrations

The Desert Island Adventure Book John

Grove,2011-06-01 The Land of Little Rain Mary Austin,2021-12-22 The story of the Mojave Desert in the American Southwest Written for audiences unfamiliar with life in the desert the book is divided into 14 chapters with nature as the central character Combining local stories with non fiction scientific writing the stories educate the reader while imparting knowledge about the desert and it s inhabitants human animal and plant First published in 1903 this edition is derived from the original book with 77 black white illustrations by Mr E Boyd Smith As always this edition is complete and un abridged

The White Heart of Mojave; an Adventure with the Outdoors of the Desert Edna Brush Perkins,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1922 edition Excerpt II How We Found Mojave WHEN the automobile was delivered into our hands at Los Angeles we wanted to turn around immediately and drive back through the Cajon Pass into the Mojave Desert but our inquiries about directions met with discouragement on every side It seemed to be unheard of for two women to attempt such a thing the distances between the towns where we could get accommodations were too great and the roads were apt to have long stretches of sand where we would get stuck Our friends drew a dismal picture of us sitting out in the sagebrush beside a disabled car and slowly starving to death You could not fix it they said and what would you do We suggested that we might wait until somebody came along They assured us that nobody ever came along We went to the Automobile Club they received us with enthusiasm and told us about all the places California is proud of and how to get to them but California seems not to be proud of the desert for when we mentioned it our advisers became gloomy They seemed to have no very definite information and were sure we would not like it In the face of so much discouragement we hardly dared to ask about Death Valley and when we did hesitatingly the question was ignored We simply could not get there nobody ever went The Imperial Valley seemed to be almost as bad One of the maps they gave us showed a main highway from San Diego over into it but they said that it was only a gravel road mountainous and steep and that we had better stick to the main routes Evidently they had no faith in our skill as drivers nor belief in our purpose so we soon gathered up the maps and innumerable folders about resort hotels thanked them and went our way The collection contained no map of the Chewing Sand Gail Collins-Ranadive,2014 What happens when an Easterner who needs trees hates heat and doesn t gamble spends a year living in Las Vegas Follow the author s reflections as she comes to appreciate the surrounding desert so deeply that she returns seven years later to hear more of the Mojave s message Share in the process as this desert reveals itself as both a macrocosm and a microcosm of the major issues facing us today For as a sacred text set in the perspective of deep time and clarified by silence the Mojave landscape has the power to move us humans from an ego self to an eco Self awareness *The Land of Little Rain* Mary Hunter Austin,2017-08-21 This paean to the high California desert consists of fourteen sketches based on personal observation following solitary sojourns tramping through desert trails and the streets of the mountains Mary Austin naturalist feminist mystic and poet wrote thirty five books and hundreds of

articles during her lifetime but *The Land of Little Rain* her first book is regarded as her masterpiece *THE HERITAGE OF THE DESERT* ZANE GREY, *The Illuminated Desert* Terry Tempest Williams, 2008 A stunning dialogue between two daughters of the Colorado Plateau an exquisite rendering of the red rock canyons of southern Utah and the natural history that evokes a poetry of place *The Secret Knowledge of Water* Craig Childs, 2001-05-01 Deserts are environments that can be inhospitable even to seasoned explorers Craig Childs has spent years in the deserts of the American West and his treks through arid lands in search of water reveal the natural world at its most extreme *Desert Oracle* Ken Layne, 2021-12-07 The cult y pocket size field guide to the strange and intriguing secrets of the Mojave its myths and legends outcasts and oddballs flora fauna and UFOs becomes the definitive oracular book of the desert For the past five years *Desert Oracle* has existed as a quasi mythical quarterly periodical available to the very determined only by subscription or at the odd desert town gas station or the occasional hipster boutique its canary yellow covered forty four page issues handed from one curious desert zealot to the next word spreading faster than the printers could keep up with It became a radio show a podcast a live performance Now for the first time and including both classic and new never before seen revelations *Desert Oracle* has been bound between two hard covers and is available to you Straight out of Joshua Tree California *Desert Oracle* is the Voice of the Desert a field guide to the strange tales singing sand dunes sagebrush trails artists and aliens authors and oddballs ghost towns and modern legends musicians and mystics scorpions and saguaros out there in the sand *Desert Oracle* is your companion at a roadside diner around a campfire in your tent or cabin or high rise apartment or suburban living room as the wind and the coyotes howl outside at night From journal entries of long deceased adventurers to stray railroad ad copy and musings on everything from desert flora rumored cryptid sightings and other paranormal phenomena Ken Layne's *Desert Oracle* collects the weird and the wonderful of the American Southwest into a single essential volume **The Desert Home the Adventures of a Lost Family in the Wilderness** Mayne Reid, 2017-06-26 The Great American Desert There is a great desert in the interior of North America It is almost as large as the famous Saara of Africa It is fifteen hundred miles long and a thousand wide Now if it were of a regular shape that is to say a parallelogram you could at once compute its area by multiplying the length upon the breadth and you would obtain one million and a half for the result one million and a half of square miles But its outlines are as yet very imperfectly known and although it is fully fifteen hundred miles long and in some places a thousand in breadth its surface extent is probably not over one million of square miles or twenty five times the size of England Fancy a desert twenty five times as big as all England Do you not think that it has received a most appropriate name when it is called the Great American Desert Now my young friend what do you understand by a desert I think I can guess When you read or hear of a desert you think of a vast level plain covered with sand and without trees or grass or any kind of vegetation You think also of this sand being blown about in thick yellow clouds and no water to be met with in any direction This is your idea of a desert is it not Well it is not altogether the correct one It is true that in almost every desert

there are these sandy plains yet are there other parts of its surface of a far different character equally deserving the name of desert Although the interior of the great Saara has not been fully explored enough is known of it to prove that it contains large tracts of mountainous and hilly country with rocks and valleys lakes rivers and springs There are also fertile spots at wide distances from each other covered with trees and shrubs and beautiful vegetation Some of these spots are small while others are of large extent and inhabited by independent tribes and even whole kingdoms of people A fertile tract of this kind is called an oasis and by looking at your map you will perceive that there are many oases in the Saara of Africa Of a similar character is the Great American Desert but its surface is still more varied with what may be termed geographical features There are plains some of them more than a hundred miles wide where you can see nothing but white sand often drifting about on the wind and here and there thrown into long ridges such as those made by a snowstorm There are other plains equally large where no sand appears but brown barren earth utterly destitute of vegetation There are others again on which grows a stunted shrub with leaves of a pale silvery colour In some places it grows so thickly interlocking its twisted and knotty branches that a horseman can hardly ride through among them This shrub is the artemisia a species of wild sage or wormwood and the plains upon which it grows are called by the hunters who cross them the sage prairies Other plains are met with that present a black aspect to the traveller
