focuses on the interrelationship between biological processes of aging and tumors both dormant and quiescent. With detail supplied by numerous international researchers at the forefront of cancer research the book examines a host of differing aspects of the topic. , 1963 *Tools Of Titans* Timothy Ferriss, 2016-12-06 The latest groundbreaking tome from Tim Ferriss the 1 New York Times best selling author of The 4 Hour Workweek. From the author For the last two years I've interviewed more than 200 world class performers for my podcast The Tim Ferriss Show. The guests range from super celebs Jamie Foxx, Arnold Schwarzenegger etc and athletes icons of powerlifting, gymnastics, surfing etc to legendary Special Operations commanders and black market biochemists. For most of my guests it's the first time they've agreed to a two to three hour interview. This unusual depth has helped make The Tim Ferriss Show the first business interview podcast to pass 100 million downloads. This book contains the distilled tools, tactics and inside baseball you won't find anywhere else. It also includes new tips from past guests and life lessons from new guests you haven't met. What makes the show different is a relentless focus on actionable details. This is reflected in the questions. For example What do these people do in the first sixty minutes of each morning? What do their workout routines look like and why? What books have they gifted most to other people? What are the biggest wastes of time for novices in their field? What supplements do they take on a daily basis? I don't view myself as an interviewer I view myself as an experimenter. If I can't test something and replicate results in the messy reality of everyday life I'm not interested. Everything within these pages has been vetted, explored and applied to my own life in some fashion. I've used dozens of the tactics and philosophies in high stakes negotiations, high risk environments or large business dealings. The lessons have made me millions of dollars and saved me years of wasted effort and frustration. I created this book my ultimate notebook of high leverage tools for myself. It's changed my life and I hope the same for you.
