psychoanalytic theory chapters investigate how diets and eating are used as a means to navigate individuals complex unconscious desires and conflicts and illustrate how diet and advertising industries use this to capitalize on the anxieties of the modern subject. The text's psychoanalytic approach offers rare insight into the unconscious desires that dictate individuals' choices around diets and lifestyle. By situating anxiety as the tension between jouissance and desire, the book promotes further understanding of individuals' subjective and complex relationships with food. Through an understanding of the subject and symptoms from a psychoanalytic perspective, we can begin to think differently about the ways we come to eating and dieting. This book will be useful for scholars and postgraduate students studying Lacanian psychoanalytic theory, consumer psychology, mental health, the sociology of culture and social and cultural anthropology. **Red Book**, 1981-11
