A Case Study on the Impact of YouTube-Videos on Political Campaigning* Anna Poppen,2014-06-06 Seminar paper from the year 2011 in the subject Didactics for the subject English Applied Geography grade 1 0 Carl von Ossietzky University of Oldenburg language English abstract The video sharing website YouTube has become a phenomenon that is part of an increasing number of people's lives and also a part of the usual presidential rhetoric Before the launch of YouTube in 2005 the enormous effects of this online phenomenon on all aspects of society could hardly be foreseen In 2011 however it is obvious that YouTube and other online media affect every day life including political decision making in many ways The 2004 US presidential election is often referred to as the first internet election as the candidates Howard Dean in particular started to use blogs and websites to raise money and convince voters online Zielmann R ttger 2009 77 By 2008 the internet had become even more diverse and complex and offered a lot of new online functions like social networking sites Facebook and video sharing sites YouTube These new opportunities were used by most of the candidates in the 2008 presidential election The later US President Barack Obama as well as his internal opponent Hillary Clinton made use of the internet to spread their political messages and address especially the younger voters A study that was conducted by the Pew Internet American Life Project during the 2008 election campaign proved that 40% of all adults accessed information about politics on the internet It also showed that viewers of politically relevant YouTube videos had become a key part of at least some campaign events Rainie Smith 2008 In 2008 the online world was not new to most people but it was used as a major propaganda tool by most politicians and their campaign teams for the first time In the Democratic primary elections several candidates did not announce their candidacy in the traditional press but online On July 23 2007 the first ever political debate took place on YouTube

*The Dark Side of Speech* Carlo Penco,2024-10-08 What is disinformation and why does it matter How can we understand and detect different kinds of disinformation With an analysis of relevant events of the period 2012 2022 the book attempts to answer these questions The book is organized into four parts 1 The first part presents the notions of post truth and fake news using some of the most recent critical studies analyzing some typical examples and the environment in which some of them originated 2 The second part introduces the notion of

conspiracy theory and describes the emergence of the idea of white supremacy and its ramifications together with the narratives developed during the COVID restrictions 3 The third part describes the emergence of the algorithms behind social networks and their role in propaganda making examples of US and European elections and the Brexit referendum An analysis of Cambridge Analytica shows the tip of an iceberg of disinformation that is spreading around the world Some remarks by comedians and philosophers help to give a new view on the concept of freedom of speech with particular attention to the more and more difficult freedom of the press 4 The fourth part gives some emergency tools for detecting disinformation at an individual level understanding the most hidden mechanisms of disinformation and the biases that almost unavoidably enter our minds These tools come from the results both of traditional theories and the most recent social philosophy of language not despising references to statistics This is a fundamental book for having a general survey of this period of political turmoil consulting a wide list of references and official documents and having a grasp of the means of intellectual self defense This book is non standard it relies on the most sophisticated theories of language and yet it gives everything in simple and colloquial language Differently from sophisticated analyses of linguistic phenomena it gives the feeling of participating in a tour around what happened in the last decade with a disenchanted eye that uses some results of the critical literature without compelling one to become a theoretician in the field of philosophy or critical analysis The hidden focus of the book is freedom of speech and freedom of thought and what they mean today in an era of more sophisticated and widespread disinformation permitted by the algorithms governing social networks
