The Book Of Changes A Collection Of Interviews:

Elite and Specialized Interviewing Lewis Anthony Dexter, 2014-01-01 Lewis Anthony Dexter 1915 1995 pioneered the use of specialized interviewing as a tool in the social sciences. He argued that interviewing persons who have specialised information about or who have involvement with any social or political processes is different from standardised interviewing. In elite interviewing the investigator must be willing to let the interviewee teach him what the problem the question or the situation is. He demonstrated that interviewing was a useful tool but he also argued that it was not always the most appropriate method for revealing the information required. In Elite and Specialized Interviewing decades of his practical experience of both how to interview and how to use interviews was distilled into a readable yet rigorously analytical book. First published in 1969 it remains as good a guide to the subject as the 21st century researcher can find. Changes in the Structure of Manufacturing Employment William A. The Selection and Training of Salesmen Herbert Glenn Kenagy, Clarence Stone Yoakum, 1925 Selection of Candidates as a Function of Human Resources Management in the Company Darko Lugonja, 2011-08-19 Research Paper undergraduate from the year 2010 in the subject Business economics Business Management Corporate Governance University of Zagreb Institute of Economics course MBA Human resources management and development language English abstract Contemporary business management is based on management of resources particularly human resources. Planning recruiting and selecting candidates are key human resource functions. Business leaders are continuously engaged in the process of reconsidering roles and goals managing the business in the most appropriate way. Selection based upon internal candidates recruitment was a rule in a lack of certain employees profiles. But solving the human resources insufficiency problem we often refocus our attention to external candidates recruitment and selection. Besides contacts and collaboration with media and recruitment agencies we also need strengthening of our own potentials. Selection through our own human resource department or engagement of selection agency professionals is a routine but when we have to cope with several constraints like human resources and financial resources limits then we have to rely on selection approach more flexible and adaptive to occasions. Media support at least an adequate Internet promotion lead to rising number of candidates applications. But choice of the right candidate is the art we have to accept the fact. 3 C concept Cost communication and concept itself may help in improvizing our candidate selection process. Internet ensures wide communication to candidates through social networks and Internet generally but is not enough when focusing our attention to candidates and their potential. In order to ensure choosing the right one or at least to follow the rule not to choose the wrong candidate nor to exclude the right one. Systematic approach ensures planned results and candidates choices so we have to be aware of the fact that further development and focus onto new potentials and resources are basics for our business survival.
