**Helping Families of Youth with School Attendance Problems** Christopher A. Kearney, 2019-07-15 School attendance problems even in mild forms are a significant risk factor for social behavioral and academic problems in childhood and adolescence. These cases tend to be urgent and complex in nature with problems that manifest both at home and at school. As such, mental health and school based professionals need practical and efficient strategies to resolve school attendance problems. *Helping Families of Youth with School Attendance Problems* is a real world guide to addressing school attendance problems at different levels of severity and complexity. The book offers specific procedures for many types of cases to address these problems in a relatively short period of time and within the constraints of most private practice and school settings. The text also considers developmental level with distinct coverage of elementary school children as well as adolescents in middle school and in high school. The book consists of seven empirically supported chapters that guide readers through assessment, consultation, and intervention processes. Given the limited timeframe frequently faced by mental health and school based professionals, these processes are often blended. Beginning with an overview of school attendance problems, the heart of the book offers core intervention components as well as other procedures to enhance the effectiveness of these components. These components cover key aspects of anxiety and contingency management, school reintegration, and school engagement, as well as suggestions for many specific scenarios. The final chapter focuses on chronic and severe school attendance problems and other highly challenging scenarios common to these young people. *Helping Families of Youth with School Attendance Problems* is a must have resource for mental health and school based professionals alike, as well as for others who regularly engage with this population.

**A Behavior Analyst's Guide to Supervising Fieldwork** Tonya N. Davis, Jessica S. Akers, 2023-01-05 This guide is specifically designed for supervisors of trainees completing fieldwork requirements for the Board Certified Behavior Analyst BCBA credential to ensure a well planned and well documented fieldwork experience.

Supervisors have a significant responsibility to plan, sequence, implement, and track their supervisee's fieldwork and skill acquisition.
