*Good Grammar [Grades 6-12]* Matthew Johnson, 2024-07-19 Modernize grammar instruction with language lessons that inspire and engage students. This type of disengagement and resulting student struggles have long been the norm not the exception when it comes to grammar and language lessons. But why? Why does grammar something so relevant and essential that we use it in the creation of every syllable we say write or think often end up as one of the dullest and most disconnected parts of the ELA classroom? *Good Grammar Joyful and Affirming Language Lessons That Work for More Students* seeks to answer that question and to offer practical on the ground solutions for making grammar and language instruction more accessible practical and connected to students reading writing and most importantly the deep well of language knowledge they bring with them already. At the core of the book are six key practices for creating language instruction that comes across clearer sticks better transfers easier and ultimately instills a love of language all while teaching major grammatical concepts. Written by a practicing classroom teacher this book offers Ready to go lessons and a recommended sequence. Explanation of essential grammar and language concepts for teachers who need to refresh their own understanding of grammar and language topics and concepts. Suggestions on how to introduce important linguistic concepts into secondary classes including lessons about how language develops how to define examine and celebrate dialects familects idiolects and protocols for discussing concepts like code meshing and correctness. Examination of broader trends concerning what works and what doesn't work in regards to grammar and language instruction with a goal of giving teachers the tools they need to create their own grammar and language curriculum that engages inspires and transfers more easily into student writing and life beyond the classroom walls. The title *Good Grammar* seeks to remind us that grammar doesn't have to be boring or feel punitive.
