Teaching

for Thinking Today Selma Wassermann,2015-04-24 This is the inspiring story of a group of teachers that engaged in inquiry about their own practice in order to support inquiry learning in their students The Supporting Knowledge Integration for Inquiry Practice SKIPP is an exciting new professional development program that brings together the strengths and benefits of several existing models participant directed inquiry school university partnerships and the shared pedagogical improvement model of Japanese lesson study Based on the work of urban public school teachers over the course of three years the SKIPP approach was developed to assist teachers in the daunting task of integrating new pedagogies curricula and technologies into their practice

Professional Learning in a School-Based Community of Science Teachers Wayne

Melville,2010-01-01 The ubiquitous science department occupies an unusual position in most secondary schools Traditionally they have been part of the organisational structure of schools with administrative responsibilities over room allocations teaching assignments and the management of laboratory equipment These are important roles but they only tell half the story Science teachers are more than members of an organisational structure They are also members of a science education community which is shaped by their shared understanding of science The science department as community also possesses a pivotal if undervalued role in teacher professional learning This book conceptualises professional learning as the engagement of teachers in a virtues based personal reflection and or public discourse around the episteme techne and phronesis in the spaces in between the metaphors of understanding community meanings practice and identity As such it speaks to heads of science departments school administrators and those with an interest in leadership within schools
