# THE REGENSBURG LECTURE

Pope Benedict XVI's Regensburg Lecture (included in this book) called for freedom of conscience in religious matters and a reasoned debate. Not everyone agreed.

"this is an argument . . . men and women of goodwill need to hear and thoughtfully consider." — Robert P. George, Princeton

## **The Regensburg Lecture:**

**The Regensburg Lecture** James V. Schall, 2007     *A Living Sacrifice: Liturgy and Eschatology in Joseph Ratzinger*  
Roland Millare, 2022-06-13 A Living Sacrifice focuses on the inherent relationship between eschatology and the liturgy in light of Ratzinger's insistence upon the primacy of logos over ethos. When logos is subordinated to ethos the human person becomes subjected to a materialist ontology that leads to an ethos that is concerned above all by utility and progress which affects one's approach to understanding the liturgy and eschatology. How a person celebrates the liturgy becomes subject to the individual whim of one person or a group of people. Eschatology is reduced to addressing the temporal needs of a society guided by a narrow conception of hope or political theology. If the human person wants to understand his authentic sacramental logos then he must first turn to Christ the incarnate Logos who reveals to him that he is created for a loving relationship with God and others. The primacy of logos is the central hermeneutical key to understanding the unique vision of Ratzinger's Christocentric liturgical theology and eschatology. This is coupled with a study of Ratzinger's spiritual Christology with a focus on how it influences his theology of liturgy and eschatology through the notions of participation and communion in Christ's sacrificial love. Finally A Living Sacrifice examines Ratzinger's theology of hope, charity, and beauty as well as his understanding of active participation in relationship to the eschatological and cosmic characteristics of the sacred liturgy.

The central message behind ACW is that the future of the world depends on peace between Muslims and Christians. ACW aims to achieve political change through theological argumentation. An improvement in Islam West relations can be indirectly achieved through a focus on improving Christian Muslim relations. This study investigates the genesis and fruits of ACW highlighting the importance of a specific historical and sociopolitical Sitz im Leben which decisively influenced its form and content     **Islam in the West** Max Farrar, Yasmin Valli, 2012-06-29 This book contributes to understanding of the contemporary relationship between Muslims and the Western

societies in which they live focusing particularly on the UK Chapters reflect on the nature of multiculturalism as well as a wide range of specific aspects of daily life including religious dialogue gender freedom of speech and politics **Repetition and Mythos** Matthew R. Boulter, 2022-02-03 Writing his Habilitationsschrift as a young man in the late 1950s future Pontiff Joseph Ratzinger argues that when St Bonaventure composed his Collationes in Hexaemeron in the spring of 1273 not since St Augustine's *De Civitate Dei contra Paganos* had the world seen such a ground breaking work on the logos of history. Indeed for Ratzinger's Bonaventure history is first philosophy. The thirteenth century Franciscan rails against the widespread assumption rooted the newly rediscovered Aristotle of history's unintelligibility. For Bonaventure mythos mediates the difference between science and history yielding a non positivistic approach to the latter. Building on the dynamics of Plato's *Timaeus* Boulter shows that the days of creation narrated by Bonaventure structure both history and thought. Because like a story it has beginning and end history as a whole can be grasped. Hence eschatological knowledge of the end of the world is possible. Yet this work also shows how the false progress myths of modernity are counterfeit versions of true spiritual advancement of the kind embodied by saints such as Francis and Bonaventure himself. What is the logos of history? It turns out that it is mythos. *The Nature of Political Philosophy* James V. Schall, 2022-10-02 In his final collection of essays Father Schall explores the life of faith across a dazzling array of subjects from Martin Luther to bioethics. With his characteristic patience, brilliance, and careful tenacity, Father Schall interrogates profoundly what it means to try to be a citizen of the Kingdom of God in the city of Man. Never shying away from controversy across 14 articles and 4 book reviews, Father Schall investigates the critical themes of his life and scholarship: reason and revelation, the nature of modernity, literature and salvation, metaphysics and politics, and much more. Whether the reader is new to Father Schall or a longtime student, this posthumously published collection of essays offers a profound meditation on the nature of political philosophy and particularly what it would mean for Catholicism to offer a political philosophy. From such fundamental considerations, Schall explores ethical, literary, and legal themes, displaying his typical breadth and depth of engagement with all that is real. Ultimately, Father Schall leads one on a Socratic enterprise: an education whereby one comes to question one's own basic assumptions and to dig deeper into the first principles as they are recalled in the orders of knowledge and being. While Father Schall has passed on to his reward, this collection of essays helps ensure that his lessons continue to guide, challenge, and enrich students for generations to come. **Christianity in the Modern World** Ambrose Mong, 2022-01-27 The influence of religion on culture is as strong as ever, but the shape of that influence is unique in today's pluralistic society. In *Christianity in the Modern World*, Ambrose Mong examines critically themes of religious commitment and tolerance, attitudes towards other religions, and the sociological aspects of religion and inter-religious dialogue. He provides an overview of factors that challenge traditional religion from the relationship between monotheistic and polytheistic beliefs to the history of tolerance and intolerance in the church and the future of secularism. Following the global ethics formulated by the late Hans

Kung Mong also engages with the dialogue between Jurgen Habermas and Joseph Ratzinger to provide an extensive defence of the importance of inter religious dialogue with particular relevance to multiple religious belonging in the Asian context Scholars of world religions will find Mong s analysis compelling while students will find his introduction to the historical dialectics underlying many of today s tensions illuminating The Fragility of Order George Weigel,2018-04-27 One of America s most prominent public intellectuals brings thirty five years of experience in Washington and Rome to bear in analyzing the turbulence that characterizes world politics American public life and the Catholic Church in the early twenty first century In these bracing essays George Weigel reads such events as the First World War the collapse of Communism and the Obama and Trump presidencies through a distinctive cultural and moral lens even as he offers new insights into Pope Francis and his challenging pontificate Throughout two of Weigel s key convictions that ideas have consequences for good and ill and that the deepest currents of history flow through culture illuminate political and economic life and the life of the Church in ways not often appreciated or understood Many of the chapters in this book originated in George Weigel s annual William E Simon Lecture which since 2001 has become a major event in Washington D C They are unique in their application of philosophical and theological perspectives to the issues of history and politics enabling the reader to see current events in a deeper way

**The Collapse of Freedom of Expression** Jordi Pujol,2023-02-15 This book offers a holistic account of the problems posed by freedom of expression in our current times and offers corrective measures to allow for a more genuine exchange of ideas within the global society The topic of free speech is rarely addressed from a historical philosophical or theological perspective In The Collapse of Freedom of Expression Jordi Pujol explores both the modern concept of the freedom of expression based on the European Enlightenment and the deficiencies inherent in this framework Modernity has disregarded the traditional roots of the freedom of expression drawn from Christianity Greek philosophy and Roman law which has left the door open to the various forms of abuse censorship and restrictions seen in contemporary public discourse Pujol proposes that we rebuild the foundations of the freedom of expression by returning to older traditions and incorporating both the field of pragmatics of language and theological and ethical concepts on human intentionality as new complementary disciplines Pujol examines emblematic cases such as Charlie Hebdo free speech on campus and online content moderation to elaborate on the tensions that arise within the modern concept of freedom of expression The book explores the main criticisms of the contemporary liberal tradition by communitarians libertarians feminists and critical race theorists and analyzes the gaps and contradictions within these traditions Pujol ultimately offers a reconstruction project that involves bridging the chasm between the secular and the sacred and recognizing that religion is a font of meaning for millions of people and as such has an inescapable place in the construction of a pluralist public sphere The Catholic World Report ,2007 Origins ,2007 **Syllabus of Lectures** Henry Morse Stephens,1918 Orate Fratres ,1929
