## **Google Drive Compare Tutorial:**

Creating Online Tutorials Hannah Gascho Rempel, Maribeth Slebodnik, 2024-02-14 Today's students rely heavily on electronic resources they expect to be able to access library resources from any location and at any time of the day. Online education is ubiquitous from K-12 through graduate level coursework and is increasingly used in on-the-job training. Libraries must be prepared to guide learners to use library resources when and where they are needed. Thoughtfully designed online tutorials can be the library's answer to providing this point-of-need instruction that learners have come to expect. When librarians don't have the technical expertise needed to create online tutorials, *Creating Online Tutorials: A Practical Guide for Librarians*, Second Edition will help guide them through the basics of designing and producing an online tutorial. Using practical examples, the book leads librarians through the process of creating an online tutorial from start to finish and provides tips and strategies that will be useful to librarians with more experience in designing online tutorials. This detailed roadmap for designing and producing online tutorials covers:

- Is a tutorial the right solution?
- Assessing diverse user needs
- Choosing the right technology
- Selecting and organizing instructional content
- Planning tutorial design elements
- Integrating assessment into tutorial design
- Maintaining and updating tutorials
- Finding online tutorial resources

After reading this book, new tutorial developers will have a practical, adaptable blueprint that enables them to confidently address the creation of their first online tutorials, and experienced developers will learn efficient techniques to create and enhance future tutorials that are attractive, effective teaching tools.

*Building Energy Simulation* Vishal Garg, Jyotirmay Mathur, Aviruch Bhatia, 2020-08-17 The second edition of *Building Energy Simulation* includes studies of various components and systems of buildings and their effect on energy consumption with the help of DesignBuilder™, a front end for the EnergyPlus simulation engine, supported by examples and exercises. The book employs a learning-by-doing methodology. It explains simulation input parameters and how to do analysis of the simulation output in the process, explaining building physics and energy simulation. Divided into three sections, it covers the fundamentals of energy simulation followed by advanced topics in energy simulation and simulation for compliance with building codes and detailed case studies for comprehensive building energy simulation. Features:

- Focuses on learning building energy simulation while being interactive through examples and exercises.
- Explains the building physics and the science behind the energy performance of buildings.
- Encourages an integrated design approach by explaining the interactions between various building systems and their effect on energy performance of building.
- Discusses a how-to model for building energy code compliance including three projects to practice whole building simulation.
- Provides hands-on training of building energy simulation tools: DesignBuilder™ and EnergyPlus.
- Includes practical projects, problems, appendices, and CAD files in the e-resources section.

*Building Energy Simulation* is intended for students and researchers in building energy courses, energy simulation professionals, and architects.

Do you wish to learn the powerful features of Google Apps and collaborative features amongst them? Then you are about to access all that Google Drive and Docs offers. Google does not require any form of introduction. It is the biggest search engine in the world, but it doesn't end there. They provide several services that enhance productivity and share information among Google users. This brings us to the question: what are Google apps? Google apps are a suite of platform-independent productivity applications. What this means is that they can be accessed on just about any device, platforms, or operating system: Windows, Mac, mobile devices, Android, iOS, etc., allowing users to synchronize and integrate the services provided by these apps seamlessly. This means emails, calendars, contacts, files, and many more can be shared among different users in a collaborative environment. Some useful Google apps will be briefly discussed, including Gmail, Google Drive, Google Docs, Sheets, Forms, Slides, Drawings, and Google Site. Others include Google Collaboration, Keeps, Calendar, Photos, Contacts, etc. Here is a preview of some of the things you will learn: Getting Started With Google Apps, Accessing Google Apps, Setting up a Google Drive Account, Creating folders, Docs and sheet, Opening Google Docs From Google Drive, Opening Google Sheet From Google Drive, Opening Google Slides From Google Drive, Opening other apps through Google Drive, Sharing, Tagging, and Collaborating within Google Docs, Google Docs Mail, Collaboration, Voice Typing, and Lots More.
